STARRED QUESTIONS.

By the Hon'ble BABU UPENDRA LAL RAY :—

Non-affiliation of the Chittagong College in certain subjects and the want of a first-grade college at Comilla.

*1. (*a*) Are the Government aware that a large number of students of the Chittagong Division prosecute their studies at Calcutta, Dacca and other places?

(*b*) Is it not a fact that, in several of these cases, this is due to the non-affiliation of the Chittagong College in certain subjects, especially logic, and to the want of a first-grade college at Comilla?

(*c*) Are the Government aware of the representations which have been made from time to time in this regard, and will they be pleased to state what steps they are taking in the matter?

The Hon'ble MR. SAMMAN replied :—

(*a*) "Government have no statistical information on this point.

(*b*) This is probably the fact, but no specific cases have come to the notice of Government.

(*c*) Government are aware of the representations which have been made from time to time. No extension of affiliation is possible until more accommodation is available. Steps are being taken to supply the want."

*11. (*a*) Will the Government be pleased to state whether there is any proposal at present under their consideration for the appointment of two Deputy Directors of Public Instruction?

*12. (*a*) Is it a fact that a very large number of students, who passed the last Matriculation and I. A. and I. Sc. Examinations, have failed to secure admission in any college in Bengal?

(*b*) Have the Government any information as to the total number of boys who have failed to obtain such admission?

The matter is receiving the sympathetic attention of Government. Special hostels for Namasudras have already been established at Dacca, Brakandi (Faridpur) and Barisal; for Yogis at Chittagong and Comilla; and for Rajbansis at Rangpur. Other cases in the mufassal are under consideration. As regards

Questions and Answers.

Calcutta, the mess scheme which is under the administration of the University and is subsidised by Government, aims at providing hostel accommodation for Indian students of all classes. The Governor in Council is confident that the claims of Namasudras and similar caste will not be overlooked by the University."

By the Hon'ble BABU SURENDRA NATH BANERJI :—

*14. Is it a fact that, in granting admission to the Physical Department of the M. Sc. class of the Presidency College this year, students from other colleges who stood high in order of merit at the B. Sc. Examination have been passed over in favour of students of the Presidency College, although the latter occupied lower places at the last B. Sc. Examination?

Admission to the Physical Department of the M. Sc. class of the Presidency College.

The Hon'ble MR. SAMMAN replied :—

"Students passing the B. Sc. Examination from the Presidency College are entitled to promotion to the M. Sc. classes of that College if they shew themselves fit for the higher course of study. They are not liable to be turned out in favour of students who have passed the B. Sc. from other colleges merely because the latter took a higher place on the list.

In accordance with this principle, some students of the Presidency College who did not obtain honours in the B. Sc. Examination have been admitted to the M. Sc. classes, whereas some students from other colleges who did obtain honours had to be refused admission for want of accommodation."

By the Hon'ble BABU SURENDRA NATH BANERJI :—

16. (a) Is it a fact that the existing High English schools in Mymensingh are unable to comply with the demand for new admissions?

High English schools in Mymensingh.

(b) Does this state of things prevail in any other town of Bengal?

(c) If so, are the Government considering the desirability of establishing or encouraging the establishment of new High English schools in those localities?

The Hon'ble MR. SAMMAN replied :—

(a) "It is a fact that all the existing High English schools in Mymensingh are overcrowded.

(b) This is not peculiar to Mymensingh.

(c) The establishment of new High English schools under such circumstances is not a matter in which Government can always, or even as a general rule, take the initiative; but any request for assistance will be carefully considered, if received through the proper channel."

Questions and Answers.

By the Hon'ble BABU SURENDRA NATH BANERJI :—

Control of village chaukidars.

*17. (a) Are the village chaukidars under the dual control of both the Presidents of Panchayats and the Chief Police-officers of the thanas?

(b) If so, are the Government considering the desirability of abolishing this system of dual control?

The Hon'ble MR. CUMMING replied :—

(a) "A reference to the Chaukidari Act and Chaukidari Manual will show that in districts where President Panchayats have been appointed, chaukidars have duties to perform under both the President of Panchayat and the officer in charge of the police-station.

(b) The subject of chaukidari administration is under consideration; but this question is not being specifically considered at present."

By the Hon'ble BABU SURENDRA NATH BANERJI :—

*18. Will the Government be pleased to state the rates of dietary allowance per diem given in the Medical College and Campbell School Hospitals to European and Indian patients, respectively?

Indian patients	4	6"

Supplementary question.

The Hon'ble BABU SURENDRA NATH BANERJI asked the following supplementary question :—

"Will the Government consider the advisability of taking action with a view to raising the daily dietary allowance of Indian patients in the hospitals?"

The Hon'ble MR. STEPHENSON replied :—

"I think that question is rather a request for action than one for information, and is therefore out of order."

The Hon'ble BABU SURENDRA NATH BANERJI :—

"I desire to get information on this matter from Government, and therefore press the question."

The PRESIDENT said :—

"Order. I am afraid that this question is one that cannot be allowed under our rules, as it is not a request for information."

By the Hon'ble DR. DEBA PRASAD SARBADHIKARI :—

The Provincial Educational Service.

*19. Will the Government be pleased to state—

(i) what is the strength of the Provincial Educational Service as now constituted, class by class; and

(ii) whether it is a fact that about one-third of the average period of service of an officer must, in existing circumstances, be spent in the lowest class before he is eligible for promotion to the next higher class?

Questions and Answers.

The Hon'ble MR. SAMMAN replied :—

(*i*) "The present strength of the Provincial Educational Service is shown below class by class :—

Class	I	...	...	5
"	II	...	...	8
"	III	..	...	9
"	IV	...	...	13
"	V	...	...	16
"	VI	...	...	22
"	VII	...	...	32
"	VIII	...	...	52
		Total	...	157

(*ii*) The answer is in the negative."

By the Hon'ble DR. DEBA PRASAD SARBADHIKARI :—

The Provincial Educational Service.

*20. Will the Government be pleased to state—

(*i*) whether the date of the appointment of an officer to the Provincial Educational Service determines the question of his seniority in the amalgamated service ; and

(*ii*) if not, what other principle or factor determines such seniority?

The Hon'ble MR. SAMMAN replied :—

"The general principle for deciding the relative position of officers in the Provincial Educational Service is that an officer's seniority in a grade is determined by the date of his admission to that grade.

When the cadres of Bengal and Eastern Bengal and Assam were amalgamated, this principle was strictly followed in the case of officers who had been appointed or promoted to the Provincial Educational Service after the first partition of Bengal in 1905. In the case of officers who were already in the Provincial Educational Service at the time of the first partition, strict adherence to this principle would have operated unevenly, for the flow of ordinary promotion was not equal in the two provinces. It was therefore decided that the relative position of those officers who had been in the Provincial Educational Service at the time of the first partition shoulld ordinarily be decided according to their position on the list at that time. Exception was made in the case of those officers who had in the interval been given special promotion and of those who had been degraded or whose promotion had been stopped as a punishment. To avoid hardship in individual cases it was further decided that no officer should lose a grade on account of the re-amalgamation of the cadres, but that if at the date of the re-partition an officer in one province was in a grade lower than one or more junior officers in the other province he should on subsequent promotion to the higher grade at once resume his proper position above his juniors in that grade unless there were any special reason to the contrary."

By the Hon'ble DR. DEBA PRASAD SARBADHIKARI :—

Method of selection of text-books obtaining in the Dacca, Chittagong and Rajshahi Divisions.

*21. (*a*) Will the Government be pleased to state what is the method of selection of text-books obtaining in the Dacca, Chittagong and Rajshahi Divisions?

(*b*) Is there in vogue in these divisions a system of further confidential examination, by experts, of text-books approved by the Text-Book Committee with a view to their final selection?

Questions and Answers.

The Hon'ble MR. SAMMAN replied :—

(*a*) "The method of selection of text-books in the Dacca. Chittagong and Rajshahi Divisions is governed by the rules published in Eastern Bengal and Assam Notification No. 5087 C., of the 23rd April, 1907, with the modification that the Director of Public Instruction is no longer required to submit his recommendations to Government, but has power to pass final orders himself.

(*b*) The answer is in the negative."

By the Hon'ble DR. DEBA PRASAD SARBADHIKARI :—

Vacancies in the different classes in the Provincial Educational Services.

*22. (*a*) With reference to the reply given by the Government on 2nd July to my question relating to the number of vacancies existing in the different classes of the Provincial Educational Service, will the Government be pleased to explain the discrepancy between the figures as given in that reply and those indicated in the Bengal Civil List dated April 1st, 1914 ?

(*b*) Will the Government also be pleased to state how these excess vacancies have been filled ?

The Hon'ble MR. SAMMAN replied :—

(*a*) "The discrepancy noticed by the Hon'ble Member is due to the fact that certain posts which have been transferred to the Province of Bihar and Orissa have not yet been excluded from the Bengal Civil List.

The necessary correction will be made in the next issue.

(*b*) When these posts are excluded there will be no excess vacancies."

By the Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR :—

Admission of students into the Nawab Bahadur's Institution, Murshidabad.

*24. (*a*) Is it a fact that about 200 students were refused admission into the Nawab Bahadur's Institution, Murshidabad, this session ?

(*b*) Is it a fact that among them there was a good number of local students ?

(*c*) Is it a fact that there is not sufficient accommodation in the school building to accommodate even local students ?

(*d*) If so, will the Government be pleased to state what steps (if any) they are taking in the matter ?

The Hon'ble MR. SAMMAN replied :—

(*a*) "The answer is in the affirmative.

(*b*) Only nineteen local students were refused admission. The reason for this refusal was that their applications were not received till after the classes had been filled.

(*c*) The answer is in the negative."

Questions and Answers.

By the Hon'ble MAHARAJA RANAJIT SINHA OF NASHIPUR—

*25. (*a*) Is it a fact that the sanitation of the Murshidabad Municipality is deteriorating and that the population of the town is on the decrease owing to a steady increase in the death-rate? Sanitation of the Murshidabad Municipality.

(*b*) If so, will the Government be pleased to state what steps (if any) they are taking to improve the sanitation of the said Municipality?

The Hon'ble MR. SAMMAN replied :—

(*a*) "The sanitation of the Murshidabad Municipality is reported to be deteriorating. Inquiries, however, show that although since 1872 the population has declined steadily at the rate of about 300 souls a year, the death-rate has fallen from 51·37 per mile in 1901-03 to 36.72 per mile in 1911-13. The decline in the population, therefore, is mainly due not to heavier mortality but to the rapidly diminishing importance of Murshidabad as an industrial centre.

(*b*) The initiative in any measures of sanitation for the Murshidabad Municipality should be taken by the Municipal Commissioners. Government will be pleased to give careful consideration to any such schemes as are submitted to them through the proper channel."

*26. (*a*) Is it a fact that the Government have received an application from the Commissioners of the Murshidabad Municipality for a grant of Rs. 5,000 for jungle-cutting? Jungle-cutting in the Murshidabad Municipality.

(*b*) If so, will the Government be pleased to state what orders they have passed in the matter?

The Hon'ble MR. SAMMAN replied :—

(*b*) Are the Government aware that the income of the said Municipality is gradually decreasing and is insufficient to meet the maintenance cost of the said water-works?

(*c*) Is it a fact that for the above reason Mr. Milne, the present District Magistrate of Murshidabad, is seeking to provide the Municipality with a modified water-works scheme for each ward?

(*d*) If so, will the Government be pleased to state whether they are considering the desirability of instructing the Sanitary Engineer to co-operate with the District Officer in this matter and arranging to provide the Municipality with money for carrying out these schemes?

The Hon'ble MR. SAMMAN replied :—

"A water-works scheme for the Murshidabad Municipality was drawn up by the Sanitary Engineer in 1909, but was dropped by the Municipal Commissioners for financial reasons early in 1910. Since then the income

of the Municipality has slightly increased, but its financial position is not yet strong. No application has reached Government for a revival of the scheme, and Government do not know what action is being taken by the District Magistrate in the matter. At one time it was hoped that private subscriptions would be forthcoming, but the latest information received by Government showed that local interest in the scheme was dead."

(*b*) If so, what steps (if any) have they taken in the matter?

The Hon'ble MR. SAMMAN replied :—

(*a*) "The pamphlet entitled 'Insanitary Magura,' written by Babu Rebati Kanta Sirkar, has since been received.

Pasture land for cattle-grazing in rural areas.

*30. Will the Government be pleased to state what action (if any) they are taking to provide pasture land for cattle-grazing in the rural areas of the Presidency?

The Hon'ble MR. KERR replied :—

"The Hon'ble Member is referred to the answer given in this Council on the 13th January, 1914, to a question put on the same subject by the Hon'ble Nawab Saiyid Hossam Haidar Chaudhuri, Khan Bahadur. The following action has been taken in regard to the measures which were then under the consideration of Government :—

(1) It has been ruled that the purchase of land for grazing purposes is not within the powers of District Boards under the Local Self-Government Act, but that there is no objection to District Boards letting out for grazing purposes any land which may be at their disposal.

(2) The Board of Revenue has addressed Commissioners of Divisions and District Officers on the subject of the provision of grazing lands in Government estates, and it is proposed to take systematic action for this purpose.

(3) Experiments in the growth of fodder crops are being made on the Rangpur Dairy Farm."

(*b*) Is it a fact that even petty cases have often to be adjourned for want of personal service?

(*c*) If so, will the Government be pleased to state what action (if any) they propose to take in the matter?

UNSTARRED QUESTIONS.

By the Hon'ble RAI RADHA CHARAN PAL BAHADUR :—

I.—(*a*) Has the attention of the Government been drawn to the Beadon Street murder case of April last, in which one Kanhai Lal Sreemani was charged with the murder of one Bejoy Behari Sett, and three persons named Lalit Mohan Dhar, Hem Chander Das and Manmotha with abetment of the commission of the said offence? Beadon Street murder case

(*b*) On what date did the murder take place, and in what circumstances?

(*c*) What steps were taken to bring the culprits to justice?

(*d*) In what circumstances did the case fail in the High Court Sessions?

(*e*) Are the Government considering the desirability of taking any further action in the matter?

The following reply by the Hon'ble MR. CUMMING was laid on the table:—

(*a*) "Yes.

(*b*) On the 22nd April, 1914, one Bejoy Behari Sett of Beniapukur with four friends came to Beadon Square in a hackney carriage. In the early part of the day all five had drunk heavily at a local grog shop; and, in the afternoon, when driving through Garanhatta, they met some members of another party with whom they were at variance. A fight ensued; and in the melee Bejoy Behari Sett was stabbed and died shortly after from his wounds.

(*c*) The accused connected with the case were arrested and sent up for trial.

Questions and Answers.

(*d*) The case failed because the deceased's friends and the coachman were intoxicated at the time of the occurrence, and were therefore unable to give a clear account of what happened; also it appears that the prosecution witnesses, who seem to have been the aggressors, did not give the true facts of the case. There were no independent witnesses.

(*e*) Inquiries are being made to ascertain if there is evidence to prosecute any persons under section 110 of the Criminal Procedure Code."

Want of employment amongst the educated middle-classes of Bengal.

II.—(*a*) Are the Government aware that the general question of employment has become very acute amongst the educated middle-classes of Bengal?

(*b*) Are the Government considering the desirability of taking any steps to open out new avenues of occupation for the unemployed amongst these classes?

The following reply by the Hon'ble MR. SAMMAN was laid on the table:—

(*a*) & (*b*) "Government have no precise information but are aware that there is much complaint of a general nature as to the difficulty experienced by the educated middle classes of Bengal in finding employment. Competition for appointments under Government is very keen; but the number of these posts is determined by the requirements of the public service and cannot be increased to meet the growing demand for employment among the educated middle-classes. It appears to Government that the industries of Bengal offer good openings for men with technical knowledge of a practical kind. Government are now considering schemes for the improvement of technical and industrial education in this Province and its organization in such a way as to bring the students into close touch with employers of labour and fit them for remunerative employment in industrial concerns. It is however plain that no scheme of this sort can solve the question referred to unless the members of the educated middle-classes are themselves prepared to make full use of the educational facilities offered and afterwards to do the actual practical work required for success in such profession."

Excavation of private tanks.

III.—(*a*) Will the Government be pleased to state the conditions in which District and Local Boards are permitted to make pecuniary grants towards excavation of private tanks?

(*b*) Is it a fact that owners of private tanks are generally reluctant to avail themselves of these grants in the existing conditions?

(*c*) If so, are the Government considering the desirability of modifying those conditions?

The following reply by the Hon'ble MR. SAMMAN was laid on the table:—

(*a*), (*b*) & (*c*) "The Hon'ble Member is referred to sections 79, 88 and 101 of the Local Self-Government Act III (B. C.) of 1885. The question of making rules prescribing conditions precedent to the making of such contributions was carefully considered in the year 1909, but it was eventually decided not to make any such rules. V.—Are the Government considering the desirability of appointing a Committee of experts to suggest measures for the increase of fish-supply in Bengal? Increase of fish-supply in Bengal.

The following reply by the Hon'ble MR. KERR was laid on the table :—

"The answer is in the negative. Government are not aware of the existence of any experts from whom such a Committee could be formed. The Bengal Fishery Department was organised in December, 1911, under a Deputy Director, in order to control hatcheries, to introduce and maintain fishery regulations, and to encourage the development of the fish-supply of the province. A Fishery Board consisting of certain Government officials and of representatives of the Commercial Community and the land-owners of the province has also been constituted to advise and assist the Officer-in-charge of the Department and to stimulate public interest in matters concerning fisheries, but it has not so far been able to accomplish very much, as the main work of the Fishery Department hitherto has been the investigation of the conditions of the fisheries throughout the wide area covered by the provinces of Bengal and Bihar and Orissa. The Deputy Director reports that the time is now ripe for initiating experimental work of an economic nature, and it is hoped that when practical operations have been started, the Fishery Board will be able to give the Department valuable assistance in attaining the objects which it has in view."

VI.—(*a*) Will the Government be pleased to state what arrangements exist at present for bringing home to cultivators the latest improvements in agriculture? Improvements in agriculture.

(*b*) Are the Government considering the desirability of having practical demonstrations held at suitable places in the vicinity of cultivators' holdings?

The following reply by the Hon'ble MR. KERR was laid on the table :—

(*a*) "The arrangements which are made for bringing agricultural improvements to the notice of the cultivators are of two kinds :—

(1) the publication of leaflets, which are distributed free, and of an agricultural year-book in Bengali which is sold for six annas a copy, besides being supplied free to panchayats, masters of middle vernacular and primary schools, members of the agricultural association and the Press;

(2) the ocular demonstration of the results obtained at the Government farms and also in the villages through the agency of trained demonstrators.

(*b*) Arrangements have already been made for carrying out practical demonstration work in the villages. The demonstrators, who usually belong to the cultivating class, are first instructed in the proper conduct of improvements suitable to the locality to which they are deputed, such as the use of manures and improved implements, the cultivation of superior varieties of crops, and the application of special methods of cultivation. Each demonstrator is usually in charge of about twelve plots of land, which are provided by local zamindars and raiyats by members of the agricultural association. The demonstrator is responsible for supervising the agricultural operations on

the selected plots, and for keeping a careful record of the results achieved, which are made known as widely as possible in the locality. The demonstrators also assist the cultivators in the matter of seed selection. Fifty-four demonstrators are at present employed, and arrangements are being made to train others."

Papers referred to by the Hon'ble MR. SAMMAN in his answer to Question No. XXVIII (unstarred) asked by the Hon'ble CHAUDHURI MUHAMMAD ISMAIL KHAN at the Council Meeting of the 1st September, 1914:—

No. 1560, dated Calcutta, the 18th March 1910.

From—H. A. F. LINDSAY, Esq., I.C.S., Under-Secretary to the Government of Bengal, General Department,

To—The Directo of Public Instruction, Bengal.

WITH reference to your letter No. 3696, dated the 5th March 1910, I am directed to say that Government approves of the Rules forwarded therewith, defining the functions and powers of the Governing Body of the Presidency College, Calcutta.

REVISED RULES.

(*a*) The Presidency College will have a definite scale of establishment, according to which there will be a certain number of appointments in the Indian Educational Service, the Provincial Educational Service, Subordinate Educational Service, the Lower Subordinate Educational Service, and outside the grades, respectively. The scale may be altered from time to time by Government. As far as practicable, each professorship or lecturership will be associated with a specific subject.

Questions and Answers.

(*b*) Whenever an appointment other than in the Indian Educational Service becomes permanently vacant, the Governing Body will call for applications and will elect the candidate whom they judge to be most qualified for the post. The nomination of the Governing Body will, in the case of appointments carrying a salary of Rs. 200 and upwards, require the confirmation of Government. In the case of appointments on less than Rs. 200 outside the grades, ordinary appointments on less than Rs. 200 within the grades, and appointments with a fixed minimum pay of less than Rs. 200, the election of the Governing Body, subject to the terms of rule (*e*), shall be final.

(*c*) If the appointment be in the Provincial Educational Service, the person elected will ordinarily be placed in the lowest grade of that service, but in special cases it will be open to the Governing Body to recommend to Government that the appointment be made in a superior grade, provided that the grade be not higher than that in which the previous occupant of the post was serving.

(*d*) Applications for vacancies in the Presidency College carrying the pay of the Provincial Educational Service may be submitted by officers already serving in the Education Department who will be required to obtain the previous consent of the Director of Public Instruction. If such an applicant be already in the Provincial Educational Service, he will ordinarily carry with him his present pay, though subject to a similar proviso as in rule (*c*), it will be open to the Governing Body to recommend special terms in special cases. If the applicant is not in the Provincial Educational Service, he will be promoted to it according to the terms of rule (*c*).

(*e*) If the vacant appointment be one carrying the pay of the Subordinate Educational Service or the Lower Subordinate Educational Service, or be one outside the grades, the person elected will be placed in the respective service on the lowest pay, which has been fixed by Government in connection with the appointment in question. If the Governing Body desire to make the appointment on any higher rate of pay than the minimum, they must submit their proposals to the Director of Public Instruction for approval.

(*f*) As in the case of Provincial Service appointments and subject to similar conditions, officers already serving in the Education Department may become candidates for appointments in the Presidency College under rule (*e*).

(*g*) If a post in the Presidency College becomes temporarily vacant, the Governing Body will make a temporary appointment subject to the confirmation required by rule (*b*). If the appointment be in the Provincial Educational Service, the pay of the temporary incumbent should be fixed at Rs. 200, and for other appointments at not less than the lowest pay attached to the appointment in question.

(*h*) No officer will ordinarily be transferred by Government from the Presidency College without the approval of the Governing Body.

By the Hon'ble RAI HARI MOHAN CHANDRA BAHADUR:—

Prevention of water-logging in lands on the sides of canals, etc.

XXIX.—(*a*) Are the Government taking any steps to prevent water-logging in, and otherwise to remove the present insanitary condition of, lands in their occupation situate on the sides of canals, railways and roads which are at present under the control of the Public Works Department?

(*b*) Are the Government issuing any instructions with a view to compel District and Local Boards to do the same with respect to lands abutting on roads maintained by them?

The following reply by the Hon'ble MR. GREEN was laid on the table:—

(*a*) and (*b*). "The Hon'ble Member is apparently alluding to the question of borrowpits. This Government have taken steps to secure that borrowpits alongside roads of the Public Works Department and Roads of local bodies are constructed and maintained upon sanitary principles. Circular No. 16 C., dated 27th May, 1908, is laid upon the table. The attention of the Superintending Engineers, who are also Inspectors of Local Works, is being drawn to this Circular.

Questions and Answers.

As regards borrowpits in Railway lands, the Sanitary Department of this Government has drawn the attention of the railway authorities to the question of keeping borrowpits in a sanitary condition.

As regards canals, borrowpits are drained into the canals at frequent intervals and as almost all surplus lands attached to canals are leased out for cultivation, the officers of the Irrigation Department take care that such lands are properly drained."

Circular referred to in the Answer by the Hon'ble Mr. Green to Question No. XXIX (unstarred) asked by the Hon'ble Rai Hari Mohan Chandra Bahadur at the Council Meeting of the 1st September, 1914.

Circular No. 16 C., dated Calcutta, the 27th May 1908.

From—M. J. SCOBIE, ESQ., Secretary to the Government of Bengal, Public Works Department.

To—All Superintending Engineers of Public Works Circles in Bengal.

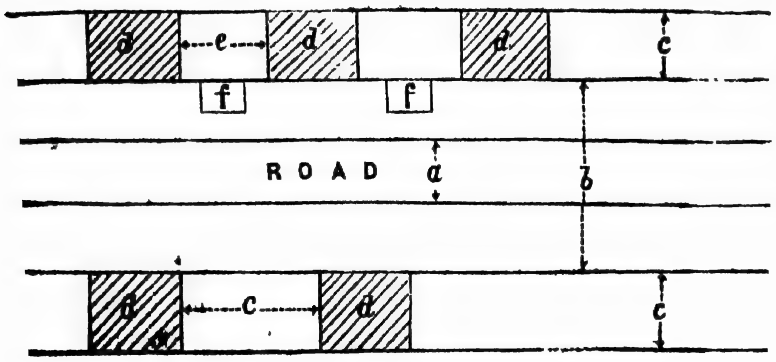
I AM directed to forward the marginally-noted extract from paragraph 37 of the report of the Drainage Committee, Bengal, received with letter No. 45 of 6th April, 1907, from the Secretary to the Drainage Committee, Bengal, concerning the manner in which borrow-pits have been excavated.

* * * * *

We think it more probable that the construction of these embankments may have done injury to health, not so much by obstructing the course of drainage, but from the manner in which the earth heaped upon them has been excavated. Pits have been left which are undrained and which became breeding grounds for mosquitoes of much the same character as the hollows surrounding the village sites. We think that more attention should be given to this point when these projects are under preparation, and that no plan should be accepted as complete which does not deal with the subsequent drainage of the borrow-pits which are left alongside.

2. I am to point out that the pits referred to are caused, not only during the construction of roads, embankments, etc., but also during their repair, and that a little care might lead to great improvement. Pits should, as a rule, be 1 foot to 2 feet in depth: where deeper borrow-pits are necessary, arrangements should be made for draining them when such a course is practicable. If situated in an area liable to floods, they would become silted up in the course of a few years. Care is particularly necessary near houses where the dirty shallow pools are likely to become breeding grounds for mosquitoes.

3. It has been noticed that much improvement is required in laying out borrow-pits for new works. These should be laid out by the subordinate in charge of the work, and the contractors should not be allowed to dig as they please. The pits should be spaced at suitable intervals and be of a size calculated according to the height of the banks required. Wherever practicable the pits should be dug on land temporarily acquired for the purpose lying outside the road or embankment limits, and should not be continuous. They may be on one or both sides of the road as per sketch below :—



Questions and Answers—The President.

In the sketch—

(*c*) „ „ „ temporarily acquired.
(*d*) „ borrow-pits.
(*e*) Space between borrow-pits usually not less than 10 feet.

4. The same course should be adopted when earth is required for repairs. Where practicable such pits should be dug outside road limits; where this is not practicable, earth should be dug close to the permanent boundary as marked off on foregoing sketch. In passing through villages special care should be taken. In such cases the height of the bank would ordinarily not be great. It should be possible to dig earth as shown in the section below :—

Introduction of the elective system in the Darjeeling Municipality.

XXX.—(*a*) With reference to the reply given to my starred question (No. 7) asked at the Council meeting of the 28th February last, will the Government be pleased to state what orders (if any) have been passed on the memorial submitted to Government by certain rate-payers and others of the Darjeeling Municipality praying for the introduction of the elective system in that municipality?

(*b*) If the prayer of the memorialists has been rejected, will the Government be pleased to state the grounds on which such orders have been passed?

The following reply by the Hon'ble MR. SAMMAN was laid on the table:—

RECEIPT OF TELEGRAMS FROM THE SECRETARY OF STATE AND THE VICEROY.

The PRESIDENT said :—

(1) From the SECRETARY OF STATE :—

"Your telegram dated 11th August. Resolution of Legislative Council. Please let Council know that it has given me great pleasure to lay the Resolution before His Majesty, who greatly appreciates the declaration."

(2) From the VICEROY :—

"In the name of His Majesty the King-Emperor I thank the Members of your Legislative Council for the loyal resolution passed by them today. I am confident that Bengal will do all in her power to assist in the defence of the Empire to which she belongs."

LEGISLATIVE BUSINESS.

THE BENGAL EXCISE (AMENDMENT) BILL, 1914.

LIST OF BUSINESS—ITEM No. 3.

The Hon'ble SIR WILLIAM DUKE moved that the Report of the Select Committee on the Bengal Excise (Amendment) Bill, 1914, be taken into consideration.

He said :—

"My Lord, I think it is unnecessary for me at this stage to add anything to the explanations which on more than one occasion have been given to this Council regarding this short Bill. The practical unanimity of the Select Committee is shown by the fact that there is only a single note of dissent on one small point which will come up in Council in the form of an amendment. What is to be said on that subject will be said when the amendment is moved, and I think any further explanation is at present unnecessary."

The Motion was put and agreed to.

LIST OF BUSINESS—ITEM No. 4.

The Hon'ble DR. DEBA PRASAD SARBADHIKARI moved that—

(*i*) the word "and" at the end of sub-clause (*a*), and

(*ii*) the whole of sub-clause (*b*)

of clause 24 of the Bill be omitted.

He said :—

"Your Excellency, in moving the amendment that stands in my name, may I be permitted to express the satisfaction those I humbly represent, as well as I myself personally, feel at the present position and trend of Excise Administration in Bengal. We are aware that it is to your Excellency's sympathetic interest in the social and moral problems of good government that this position is due. The re-introduction in this Council of legislation on Excise Administration after so short a period comparatively since the passing of the Act of 1909, whatever administrative convenience may be its immediate objective, is evidence that the Department realises its administration is capable of still further improvement. The recent despatch of the Secretary of State for India to His Excellency the Viceroy has opened a new chapter in the ever-growing volume of Excise Administration. It is in line with what

The Bengal Excise (Amendment) Bill, 1914—Dr. D. P. Sarbadhikari.

I wish to say upon the amendment I have the honour to move, that the Secretary of State impresses on all Local Governments that for the furtherance of the avowed policy of the Indian Government of minimising temptation to those who do not drink and discouraging excess among those who do, all considerations of Revenue must be absolutely subordinated. Further, in the Circular Letter from the Government of India No. 1766-1783-81 Excise, dated Simla 18th March 1914, there is the clearly-stated instruction that one of the ways of giving effect to the policy above mentioned is to discourage consumption, so far as is possible, without unduly encouraging illicit methods—

(a) by the levy of as high a duty as possible, taking into account the special conditions obtaining in the locality and neighbourhood;

(b) by reducing as far as possible and with due regard to legislative requirements the number of retail shops for the sale of liquor and drugs;

(c) by regulating and closely supervising the hours of sale, the selection of sites and the general practices adopted in manufacture and vend.

It is under the latter principle that the amendment I desire to move comes in, and if all local officers will faithfully carry out the policy here set forth, we should have still further reason to accept the dictum of the Government of India in the despatch already referred to: "We are convinced," says the despatch, "that we differ from our critics not so much on general principles as in the methods by which we attempt to realise them."

In moving this amendment I cannot refrain from bringing to the Council's notice the fact that it is the only one standing against my name. And seeing I am supposed, however unworthily, to represent the temperance organisations of this city, I may be pardoned if I ask the Council's support in that, which clearly shews on my part extraordinary self-control, the practical application of temperate principles to the discussion of this Excise Bill.

Some members of this Council will be aware that the policy of the compounding of offences under the Excise Acts of Bengal has been a subject of much discussion. Under the old law, offenders had invariably to be prosecuted before a Magistrate or their licenses had to be cancelled. When the first charge was introduced, the Hon'ble Member then in charge of the Bill stated the reason thus: "There are many cases in which it would be to the advantage of both the offender and the Revenue, if the Collector or any Excise Officer specially empowered by the Local Government in that behalf had power to compromise." And the power was set up giving to the Excise officials interested in the Revenue judiciary powers over breaches of the Excise Law. But some safeguard against a possible improper use of such powers was made in limitation of its application to offences under certain definite sections. And in the introduction to the Bengal Excise Manual of 1910, now in force, a quotation is made from the speech of the Hon'ble Member in charge of the Bill of 1909 in which he remarks:—"The power of compounding offences should of course be exercised with due caution."

It is now proposed to go a still further step and to extend the power of composition to all penal offences under the Act (except such as deal with offences by Excise officers themselves), leaving with the Deputy Collector, Superintendent of Excise, or officers specially empowered by the Local Government, to decide what are of a petty nature and what are not. He appears to be limited by the ability to inflict a maximum fine of only Rs. 200 from the person who has disobeyed the law, and to whom, to quote the words of the Hon'ble Member above-mentioned, it will be an advantage, as possibly it may be to the Revenue also, to have a penal act compounded.

I would submit to Your Excellency and to this Council that the policy is unsound in principle, as it tends to take away from would-be-offenders the greatest possible deterrent of their wrong-doing. Again such a step appears to be unnecessary at this special stage in the Excise Administration, as there

The Bengal Excise (Amendment) Bill, 1914, Dr. D. P. Sarbadhikari.

is no evidence that the Department has been hampered in its administration by the lack of this proposed extended power. Finally, I think that it is dangerous in practice in that it leaves the way open for a possibility of abuse, such as should not be allowed to officers even of the position of Deputy Collector or the Superintendent of Excise.

Passing over any academic discussions on the question of principle, I should like to press for the deletion of this clause purely on the ground that no need has been shown for it. I turn to the last 5 or 6 Administration Reports of the Excise Department to look in vain for any light on the necessity of this change. The amount realised in the compounding of offences is hidden away in the column headed fines, forfeitures, and miscellaneous, Nos. 43, 44, and 45 of the Imperial Tables published under Appendix A in each Annual report, and with the exception of my Hon'ble friend's, the Excise Commissioner's, last report, in which the total number of cases compounded is shewn, there appears to be no reference to this subject for some years back.

It is of course admitted that offences of a petty nature are possible under most of the penal clauses of the Act; and doubtless the Department do not want all the trouble involved in bringing offenders to justice. In addition to this, it is well known that Magistrates are prone to view with some amount of extenuation petty offences of the special kind Excise officers are permitted to compound. Admitting this, there is no ground shewn for any alteration of the present law, and I respectfully ask the Council to be satisfied with the present position of the law which I still regard as wide enough, clear enough, and dangerous enough as it is, for all practical purposes.

May I be permitted in conclusion to make two remarks on this special piece of legislation, as it affects wider questions of Excise Administration.

The Excise Department assuredly attach the greatest importance to the suppression of illicit trade. "The greatest danger" says the Government of India, in its recent despatch to the Secretary of State for India, "that confronts the administration of Excise to-day" is this policy of the compounding of offences likely to encourage or hinder those prepared to run the risk of breaking the law in the illicit manufacture or illicit vend of liquor and drugs? My opinion is that it will encourage evil-doers in the hope that they may be able to make their offences come under the category of "petty." This piece of legislation is bound to weaken considerably those sections of the Act dealing with offences and penalties. By so doing it will encourage grasping vendors to risk the chances of detection, and so I think may be fairly characterised as creating a direct incentive to illicit practices.

Then, Sir, the point at issue also has some bearing upon the oft-discussed problem of the separation of the revenue from the licensing function in Excise Administration. It is to be regretted that Administration Reports give no means of comparison of the extent to which revenue has been increased through the operation of Excise officers dealing with the compounding of cases. One would hope that the revenue derived from fines, a fair proportion of which seems to go in the payment of rewards to informers, Excise officers, and others is not regarded with much satisfaction. On general principles, however, it cannot be regarded as satisfactory that Excise officers interested in revenue matters should have the authority to compound cases, the magisterial treatment of which might affect the revenue. I am not in any way reiterating the expression, which I personally believe to be false, that Excise officials are ever willing (if I may use Lord Crew's words) to subordinate the good order and welfare of the people to considerations of revenue. But I regard it as the wisest policy that the Government can pursue to let Excise officers even of the standing of a Superintendent of Excise have such relationship to the revenue function of Excise Administration as shall preclude even the possibility of a false aspersion. It appears to me that for Excise officers to have the powers to the extent of inflicting a fine of Rs. 200 to save a man from going to goal, who ought according to the law be sent there, or of having his license cancelled and his shop closed, is not in the interests of good government or wise legislation or Temperance Reform.

In the absence, therefore, of satisfactory and fuller reasons to justify the change suggested in this amendment I respectfully request the Council

The Bengal Excise (Amendment) Bill, 1914, Dr. D. P. Sarbadhikari.

not to approve thereof and beg to move the amendment standing in my name. The amendment possibly need never have been moved but for an unfortunate difference of opinion between the non-official members of the Select Committee and the Hon'ble Mr. Moberly in presenting its report to the Council at Dacca was good enough to say that Government might see their way of accepting the amendment, if such a difference did not exist. I regret such difference of opinion though in some way I also rejoice in it, for it shows that non-official members of your Excellency's Council do not even, in such vital matters, form cliques and parties but try to approach all questions independently from their own individual point of view and in the best light which is vouchsafed to them. That is entirely sound, and whatever the fate of this amendment or similar amendments in future may be I would wish and pray from the bottom of my heart that these sound and healthy views may always prevail. The Hon'ble Sir William Duke was also good enough to express himself in the Select Committee in terms similar to those used by the Hon'ble Mr. Moberly, and I understood that if I brought up the matter before the Council, the matter might be re-considered as the Government had no particular objection to offer to the amendment. I then believed, and still believe, that my non-official Colleagues who opposed me on the Select Committee, laboured under a misapprehension and that their objections to my amendment are not well-founded. I am still of the same opinion and leave the amendment in the hands of the Council with some confidence."

The Hon'ble MR. MOBERLEY said :—

"Your Excellency, if I may be permitted I should like, at this stage, to give a brief history of the proposed amendment to section 65, clause 24 (*b*) of the Bill.

In the Eastern Bengal and Assam Excise Bill 1909, as originally introduced into the Legislative Council of that province, clause 70 which corresponds with section 65 of Bengal Act V of 1909, limited the power of composition to certain offences of much the same character as those to which section 65 of the Bengal Excise Act is at present applicable. The Select Committee however extended the power to all offences except offences under section 61 (which corresponds with section 58 of the Bengal Excise Act) subject to the restriction that the power should only be exercised by the Excise Commissioner and any officer appointed by the Local Government to exercise the powers of a Collector. They wrote "we think that the power to accept sums of money in composition of offences is one which, if exercised by subordinate officers, is liable to lead to serious abuses. This power has accordingly been restricted to the Excise Commissioner and the Collector, it being understood that the Local Government may appoint any officer it may consider suitable to exercise the powers of a Collector under this clause.

Subject to the above restriction, we see no reason why the power of compounding offences should be limited to offences under sections 57 [now 5(*b*)], 58, 60 and 62. We recognise that the power should be exercised only in minor cases, but there may be many petty cases under the other sections in which it would be unnecessary to subject the offender to the indignity of a prosecution in court. We have therefore extended the power to all offences under the Act, except offences under section 61, which cannot suitably be compounded."

The amendment made by the Select Committee was accepted by the Council without discussion. It was in considerations similar to those set forth by the Select Committee in Eastern Bengal that Government included the amendment to section 65 of the Bengal Excise Act which is now under discussion in the Bengal Excise Amendment Bill. It may be pointed out that the safeguards, upon which the Select Committee in Eastern Bengal insisted, already exist in section 65 of the Bengal Excise Act. Not only can no officer except the Collector exercise the power unless he has been specially empowered by the Local Government, but the Local Government may not empower any officer below the rank of Deputy Collector or Superintendent of Excise."

The Bengal Excise (Amendment) Bill, 1914.

Rai R. C. Pal Bahadur; Rai Nalinaksha Basu Bahadur.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said:—

"My Lord, my hon'ble friend, Dr. Sarbadhikari, has truly said that there was a difference of opinion in the Select Committee amongst the non-official members who were in harmony with the criticisms suggested by Government, I was one of them. My Lord, the amendment that has been moved by my friend, Dr. Sarbadhikari, will not meet the arguments that he has advanced. I wish to point out that this amendment will make the matter worse, for the present law only provides that offences under sections 49, 51 and 54 are compoundable at the discretion of the Collector. Now it will be seen on closer examination of these sections that section 49 is a section which relates to licensed manufacturers or vendors or their servants and imposes a penalty for adulteration by licensed manufacturers or vendors or their servants. Then, my Lord, section 51 also relates to a penalty for certain unlawful acts of licensed vendors or their servants. My Lord, it will thus be seen that all the offences under these sections are compoundable at the discretion of the officers appointed by Government, not below the rank of Collector. Any offence committed by a person by drawing 6 seers instead of 4 seers of toddy can be compounded under this Act. I think, my Lord that my friend should have moved for the omission of the section empowering officers appointed by the Local Government to compound such offences Although I am not a member of the Temperance Society, like my hon'ble friend everybody here knows that I am a teetotaller. I think, my Lord, that this is a section which affords some protection to the poor who would otherwise be dragged to a court of law for committing a very petty offence against the Act. A poor labourer may unwittingly commit such offences, and I believe, my Lord that this section will give an opportunity for saving these poor people from harassment in a court of law. And there is the apprehension, which I need not conceal, in the minds of some of my friends that the exercise of this power is so made as not to benefit the offender so much as to benefit the officers themselves. But I am sure there will be proper supervision over these officers. But even admitting that this is the case, I do not think that any law or rule can be so made as to free the Administration from the possibility of such abuses. I speak from personal experience when I say that municipal prosecutions can be started by underlings, and, if well manipulated from behind, I think even excise prosecutions might be so instituted. I think therefore, my Lord, that this power is very necessary and should be retained in the hands of responsible officers of Government. But there should be proper supervision also. This provision will lead to the protection of the unwary illiterate poor from all the possible harassments at the hands of petty underlings. My Lord, I submit that in the late Eastern Bengal Council there were men thoroughly independent and thoroughly straightforward, but there was not the slightest opposition to this section which is taken bodily from the Eastern Bengal Act. I think therefore that, having regard to the long experience of members of Eastern Bengal where this Act came largely into force and also that there was no opposition to the amendment which was carried both in the Select Committee and in the Council, we ought to pause before we ask Government to delete the section. It is not, strictly speaking, an amendment, but it is in fact adopting a section from the Eastern Bengal Act. These are the grounds, my Lord, on which I am sorry I cannot support the motion of my friend, Dr. Sarbadhikari, with whom I am generally in agreement and harmony."

The Hon'ble RAI NALINAKSHA BASU BAHADUR said:—

"My Lord, I respectfully beg to support the amendment moved by my hon'ble friend, Dr. Sarbadhikari, not only on the grounds mentioned by him, but also on the ground that the power of compromising cases is liable to be abused and is likely to give rise to corrupt practice. True it is that the

The Bengal Excise (Amendment) Bill, 1914.

Sir William Duke.

power of compounding offences will only be exercised by the Collector and the superior officer of the Excise Department especially empowered by Government, still as they will have to depend to a certain extent on the investigating officers, these officers will, for their own benefit, be tempted to institute doubtful cases in the hope that they will be compounded. It is a well known fact that persons accused of offences try their best to compromise the cases, if possible; even innocent persons have been seen to make such attempts. They cannot be sure of the result, which very much depends on the ability of the Judge, the nature of the evidence and the lawyers who conduct the case, and with a view to avoid all this they naturally try to compound. If the amendment is not accepted, the result will be that doubtful cases will be deliberately instituted with a view to their being compounded and grave abuses will, therefore, result. I hope, therefore, that this amendment will be accepted."

The Hon'ble SIR WILLIAM DUKE said :—

"My Lord, I think that I need add very little except to state the attitude of Government in regard to this amendment. The Hon'ble Mr. Moberly has explained that we merely borrowed this provision from the Eastern Bengal and Assam Act, where it has been in force for some years past. From the Government point of view, it would no doubt seem to be a convenience to our officers and also a desirable leniency if persons committing petty offences were enabled to avoid public trial. The Hon'ble Dr. Sarbadhikari's objections are no doubt based on temperance grounds and dwell on the possibility of abuse. No doubt, in this provision, as in the case of many others, there is a possibility of abuse. There are many provisions of the law which people do abuse. At the same time, however, the exercise of the power under this clause is to be limited to Deputy Collectors and officers of the same rank, in whom people might place confidence in such matters.

The Hon'ble Rai Radha Charan Pal Bahadur has expressed the other view, which is the popular view, that it is not always necessary that because persons have committed some small offence against the law they should be prosecuted with the utmost rigour of the law. I, too, think that it is perfectly natural and reasonable that they should be given an opportunity of escaping public exposure and punishment.

But what I wish to say at this moment is that Government have no strong opinions on either point of view. I have already explained how the amended clause came into existence. If the weight of feeling in Council is in favour of the Hon'ble Dr. Sarbadhikari's amendment, Government will not oppose it, but will leave the matter to the determination of the non-official members of the Council."

The President, having called for a show of hands, declared the amendment lost.

Resolutions.

Dr. D. P. Sarbadhikari; Babu Surendra Nath Ray; Sir William Duke.

LIST OF BUSINESS—ITEM No. 7.

(*Under the rules for the discussion of matters of general public interest.*)

The following resolution stood in the name of the Hon'ble Dr. Deba Prasad Sarbadhikari:—

This Council recommends to the Governor in Council that steps be taken, in consultation with the Bengal-Nagpur Railway Company, to cut a canal from Kana Darkessar to Sarda Khal at a suitable point with a view to—

(i) minimising, if possible, the disastrous results of flooding in and about the Begua spill area, in the districts of Burdwan and Hooghly, and

(ii) facilitating a straight run for the proposed Bistupur-Howrah Chord Line.

He said:—

"My Lord, when I came to the Council Chamber, I came determined to ask your Excellency to allow my resolution to stand over for the present. Having regard to the present situation, I do not think that it will be possible for Government to give effect to my resolution even if it is carried. Since then I had an opportunity of talking matters over with the Hon'ble Colonel Lotbinière and the Hon'ble Mr. Beatson-Bell, who told me that the matter was already under the consideration of Government with a view to steps being taken to alleviate distress in the affected areas in the Burdwan and Hooghly districts. Therefore, with your Excellency's permission, I would withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 8.

The following resolution stood in the name of the Hon'ble Babu Surendra Nath Ray:—

This Council recommends to the Governor in Council that a City Civil Court, separate from the Calcutta High Court, be established in Calcutta for the trial of suits valued at rupees ten thousand or under, or of such other valuation as the Government may think proper, which may be instituted within the original civil jurisdiction of the said High Court, and that Government be pleased to take the necessary steps for the early establishment of such a City Court.

He said:—

"My Lord, I have been requested by some of my hon'ble colleagues in the Council to ask your Excellency to allow me to postpone moving this resolution till the next meeting. The establishment of a City Civil Court will be an improvement to the City of Calcutta. But my friends say that as we are now passing through anxious times, the discussion of the resolution may be postponed to a later date especially as many of my friends have not had time enough to study the question, and I do not want to divide their time and attention now by rushing my resolution through the Council. I hope your Excellency will allow me to move this resolution at the next meeting of the Council."

The Hon'ble SIR WILLIAM DUKE said:—

"My Lord, as the Hon'ble Member has given certain definite reasons based upon public grounds why the resolution should not be fully discussed to-day, I will not oppose the adjournment. But I express the hope on behalf of Government that this resolution, which has already been once adjourned, will be disposed of when it next comes up."

Resolutions.

Dr. Nilratan Sarkar; the President.

The resolution was then, by leave of the President, postponed to the next meeting of the Council.

LIST OF BUSINESS—ITEM No. 9.

The following resolution by the Hon'ble Surendra Nath Ray was postponed, at his request, to the January meeting of the Council :—

This Council recommends to the Governor in Council that a Board of Education (to consist of official and non-official members) be formed for the purpose of the administration of primary and secondary education in this Presidency.

LIST OF BUSINESS—ITEM No. 10.

The following Resolution stood in the name of the Hon'ble Dr. Nilratan Sarkar :—

This Council recommends to the Governor in Council that every mufassal dispensary be furnished with a fully equipped clinical investigation room.

He said :—

"MY Lord, with your permission, I wish to withdraw the resolution, for I recognize that in these times there are far more important matters requiring the attention of Government than equipping mufassal dispensaries and hospitals with up-to-date appliances."

The resolution was then, by leave of the President, withdrawn.

The President's Address.

The PRESIDENT said :—

"Gentlemen,—we have got through the business for which we were summoned; but before adjourning, I think it is perhaps right that I should say one or two words about the general position with regard to Bengal and what is going on in other parts of the world. There is not much that I need say. The position has not changed very much in its general features since the last time we met here. We thoroughly realize what war actually means. It causes dislocation to trade and commerce, and all the usual occupations of mankind. I think it is most satisfactory to see, in regard to this, that although in no country does war paralyse trade so much as in England, such dislocation lasts for a shorter time there than in any other country It 's gratifying to all of us to see how the people of Bengal have realized their position and are trying to adapt themselves to the altered conditions.

I need hardly refer to the larger aspects of trade and commerce. They are not matters with which my Government have much to do, for they are more the concern of the Government of India. But I think that those who are engaged in commerce can realize all that Government are doing. We all realize the splendid way in which the commercial community are bracing themselves to meet the effects of the present state of affairs, and are doing their best to help the Government and the people. We certainly recognize that. I think that everybody knows now that what is good for Calcutta is good for the whole of Bengal. We know that ships are not available now to take away our produce. It was not anticipated at first that there would be so much difficulty in obtaining tonnage, and most of the people in Calcutta hope that there will soon be more ships available to take away our exports. Trade has had a bad set-back and is not brisk, but as soon as tonnage can be secured trade will revive. I do not know when the end of the present shortage of tonnage is coming, but the end must come some time, and the ships will eventually be procured. But I fear that things

Adjournment.

The President.

will get worse before they get better. As regards the smaller traders, we now hope that the jute cultivators now realize that there is no reason why their crops should not be cut, and we trust that, owing to the wise advice given to them, those crops will certainly be cut.

We are also glad to recognize that many gentlemen are beginning to realise that attempts should be made, whether by way of reviving old industries or starting new industries, to add to the prosperity of Bengal. Very many are asking whether Government will not encourage that sort of thing. Well, so far as Government can encourage this, I am sure Government will do it; but we must remember that the Government cannot go beyond their proper province. We must be content at first with small results, and perhaps those who have money to invest must not expect too much profit. Those who have energy to put into the work must be glad to see their energies successful; but they cannot hope for success on a very large scale at first.

I think there is one matter to which reference seems to be necessary, and that is the rise in the price of food stuffs. As you all know, we have appointed an Advisory Food Committee in Calcutta which is doing its best to look into the matter, and I am glad to say that up to now nothing very unsatisfactory at any rate has happened. The rise in prices has not been very great, and in some cases the prices are even lower than usual. But one thing Government have done. They are taking care that the prices in Calcutta should be made known to the district officers weekly, so that they may deal with unnecessary rises in country produce.

Fears have been expressed by some people that there may be trouble owing to the shortage of the demand for labour in mills; but I may say that my Government are quite prepared for that, for the Chamber of Commerce and the proprietors of mills have kindly promised to give us all information in their power, so that we may be prepared for any disturbance that may be likely to happen. I think that the distribution of police forces is such that we can deal with any emergency in any district; and that there would be no difficulty in mobilising an extra force, if necessary.

There is one other matter to which I might refer. I have great pleasure in saying that there are some Indian gentlemen of standing who have promised us their services as special constables in the event of peculiar circumstances arising which might necessitate their being called upon. I believe that hitherto it has been thought that Indian gentlemen have not usually been willing to assist the police in this way. But I am glad to say that there are some of the most respected of our Indian fellow citizens, some members of this House, who are perfectly willing to come to our assistance and serve as special constables. I further take this opportunity of acknowledging how much Government owe to some English gentlemen who, as special constables, have given us help in dealing with German and Austrian subjects who unfortunately find themselves in Bengal at the present moment. I need hardly say much more except to thank everybody who has tried to keep Government informed of the state of affairs and to dispel unnecessary fears among the people. I think it ought to be widely known that Government are doing their best to keep a watch on what is happening, and that, if any emergency arises, Government are prepared to meet it.

Adjournment.

I now adjourn the Council *sine die*."

READ—

The Triennial Report on the Working of the Hospitals and Dispensaries under the Government of Bengal for the years 1911, 1912 and 1913.

Colonel G. F. A. Harris, C.S.I., I.M.S., held charge of the office of Inspector-General of Civil Hospitals during the triennium and has since been

gazetted as Surgeon-General with the Government of Bengal with effect from 1st April 1912. During his absence on seven months' leave in 1913 Colonel W. R. Edwards, C.M.G., I.M.S., acted for him.

The report shows a steady record of progress throughout the triennium, though the administrative changes which came into force on 1st April 1912 vitiate any comparison with previous reports in respect of the Province as a whole or mufassal dispensaries. As regards the staff, the most important change was the improvement in the pay and prospects of Assistant Surgeons following on a similar improvement in the case of Sub-Assistant Surgeons. A scheme was started, which has proved an unqualified success, for the post-graduate training of non-service medical officers in the Government schools to enable them to keep their medical knowledge up to date and a system of House Surgeons and House Physicians was inaugurated at the Campbell Hospital. Lieut.-Colonel Sutherland, I.M.S., was deputed by the Government of India to instruct officers in the technique of distinguishing human from other mammalian blood and his appointment has recently been sanctioned for a period of two years in the first instance. Increased attention was paid to nursing both in the Calcutta and mufassal hospitals and under the auspices of Her Excellency Lady Carmichael definite steps have been taken to train nurses systematically with a special view to their employment in mufassal hospitals.

The interests of medicine generally were advanced by the introduction of the Medical Registration Bill which became law after the close of the period under review and by the maturing of the scheme for a Tropical School of Medicine in Calcutta which is now under construction. Government have devoted considerable attention to the encouragement of the medical profession outside the ranks of the I.M.S. and the newly-created Professorship of Anatomy was reserved for them. Three of the house appointments at the Mayo Hospital and seven of those at the Medical College Hospital were filled by medical men outside the ranks of Government service; the experiment has not been very successful chiefly owing to the impatience of discipline shown by the young and inexperienced medical men appointed and, in view of the fact that other provinces have declined to try the experiment, it will be necessary for Government to reconsider the situation unless matters improve. A scheme was also developed and has, since the close of the period under review, been brought into operation whereby four honorary medical officers are appointed each to the Sambhu Nath Pandit Hospital and the Mayo Hospital and the result will be watched with great interest.

Calcutta Hospitals and Dispensaries.—In the review of the last triennial report it was stated that nearly 32 lakhs of rupees had been spent on buildings and repairs to the Calcutta hospitals during the six previous years and a warning was given that the abnormally heavy drain on Provincial resources could not continue. In the period under report minor improvements were made in most of the hospitals; a surgical ward was built at the Sambhu Nath Pandit Hospital from the donations given by Babu Dhanpat Singh Nawlakha (Rs. 25,000), Babu Behari Lal Mitter (Rs. 10,000) and grants from the Minto Fancy Fête Fund and Government; a children's ward at the Eden Hospital from funds provided by the executors of the late Nistarini Dasi; an outdoor dispensary (from the Kanai Lall Seal bequest), and the King Edward operation-room (from the King Edward Memorial Fund) at the Howrah Hospital. There are, however, still many urgent wants unsatisfied which Government, with due regard to the interests of other departments of administration and other parts of the Province, can only meet gradually. Government have provided 5 lakhs towards the cost of the Tropical School of Medicine and have undertaken the acquisition of a site for a new Eye Hospital at a cost of over 3 lakhs. It is sometimes forgotten by critics who press on Government the early completion of medical schemes for Calcutta that Calcutta hospitals serve only a fraction of the total population of the Province and that without special taxation Government are unable to undertake the burden of providing medical relief except for the very poor. The question of the abuse of free hospitals by those who can afford to pay for their treatment has recently attracted considerable attention and

Government have only been deterred from taking stringent action in the matter by the inadvisability of doing anything that might hinder the growth of popularity of European systems of medicine and treatment. The maintenance charges of Calcutta hospitals grow steadily year by year and amounted to Rs. 13,21,554 in 1913. The income of class I (State) hospitals was Rs. 11,07,950 in 1913, of which 71·14 per cent. consisted of Government grants. The Government grants to classes III and IV amounted to 29·68 of their total income. Subscriptions and donations from Indians amounted to 1·13 per cent. of the total income and those from Europeans to 1·47. As long as this apathy on the part of the general public of Calcutta continues in respect of their hospitals it can hardly be expected that Government should add to the inevitable burden of the charges which already fall upon the general taxpayer.

The average yearly number of in-patients treated at the Calcutta hospitals was 31,015, against an average of 27,970 in the previous triennium, and the increase was a steady one spread over the whole period and shared in by nearly all the hospitals. The number of beds has increased by 175, owing chiefly to the opening of the Prince of Wales's Hospital, surgical wards at the Sambhu Nath Pandit and Dufferin Hospitals and a children's ward at the Eden Hospital. A very satisfactory feature of the period was the continuous decline in the mortality rates, 12·16, 11·32 and 10·95 in 1911, 1912 and 1913, respectively, following an equal decrease in the previous triennium. Great attention has been paid to the nursing and the staff has been increased all round; there is still room for a further increase to lessen the strain on the existing staff, but this is not only a question of expense but also one of accommodation. The Calcutta Nursing Association provides nurses for the Presidency General, Medical College and connected hospitals, including the Eden, Prince of Wales Ezra, Eye, Isolation and Indian Paying Patients' hospitals and the Government grant to this Association last year was Rs. 75,000 on a basis of treble the subscriptions received from other sources with a maximum of Rs. 75,000. If the resources of this Association can be expanded, it will be easier to increase the number of qualified nurses so that each will only have the amount of work that can be done efficiently. In the Sambhu Nath Pandit Hospital, the ladies of the Calcutta Ambulance Association attend regularly and assist in dressing, etc., in the out-patient department, and the Superintendent reports that the improvement effected by them not only in minor surgical relief but in the general standard of cleanliness and order is very great. His Excellency desires to take this opportunity of thanking these ladies for the very great assistance they have rendered at a cost of considerable sacrifice to themselves.

The number of out-patients continued to rise in the same way as that of in-patients and the total in 1913 was 322,652 against 318,016 in 1910. The largest increase was in the Medical College Hospital and the considerable increase in the Sambhu Nath Pandit Hospital was no doubt due to the increase of popularity owing to the services of the Calcutta Ambulance Association already referred to.

Charitable Dispensaries outside Calcutta.—At the beginning of 1911 there were 591 dispensaries in the area contained in the present Province of Bengal; at the end of the triennium the number was 619, consisting of 23 State Public, 42 State Special, 93 Municipal, 205 District Board, 7 Local Fund, 74 Private aided, 132 Private non-aided and 43 Railway dispensaries. The increase is satisfactory, but it is very slow, and the average area to each dispensary is far too large to admit of medical attendance being available to the bulk of residents in the mufassal. His Excellency in Council is glad to note the decision of the District Board of Bogra to open one new dispensary each year and trusts that this example will be followed by other local bodies. The main obstacle is the question of funds and while Government are willing to assist with capital grants in special cases as far as the funds at their disposal allow, the burden of providing medical attendance is one that properly falls on local funds and the recent surrender to District Boards of the proceeds of the Public Works Department cess should give a considerable stimulus to

the extension of medical relief, and His Excellency the Governor in Council trusts that the present triennium will be marked by a great expansion in this direction.

The number of indoor patients steadily rose from 49,128 in 1911 to 58,284 in 1913, and the number of beds available rose from 3,509 to 3,753. There are nurses at present only in the Victoria Hospital, Darjeeling, the Berhampore Hospital, Imambara Hospital at Hooghly, the Burdwan Fraser and the Chittagong General Hospitals; in other places the nursing is still left to ward coolies and the relatives of patients. Wherever nursing has been started it has been an unqualified success and has increased the popularity of the hospital and nursing is perhaps the most crying medical want throughout the Province. There are many difficulties in the way; the expense of the staff and the necessary accommodation for them; the difficulty of obtaining the right stamp of nurses and training them, and perhaps not least the difficulty of arranging for their supervision both in and outside the hospitals. Under the auspices of Her Excellency Lady Carmichael a determined effort is now being made to tackle the question; training classes will be opened at Darjeeling, Kalimpong, Sambhu Nath Pandit Hospital and Dacca and every effort has been made to attract a suitable class; those who qualify will receive certificates and an association has been formed which will look after the certificated nurses and endeavour to provide for their welfare when they join mufassal hospitals. It is hoped that gradually the system of nursing will extend, but it is recognised that it is essential that the nurses should be properly qualified and it is impossible therefore to supply them in large numbers at once.

The number of out-patients treated rose from 4,725,609 in 1911 to 5,125,561 in 1913 and medical relief, indoor and outdoor, was provided to 11·91 per cent. of the population against 9·5 in 1910. The expenditure of class I, III and IV institutions rose to Rs. 9,92,962 in 1913, and the income was Rs. 10,89,380, of which Government contributions amounted to 20·97 per cent. in comparison with 15·5 per cent. in 1910; subscriptions did not show an equal advance and while the grants from District Boards increased, those from municipalities show a considerable decline.

The thanks of His Excellency the Governor in Council are due to Surgeon-General Harris, C.S.I., I.M.S., for his efficient administration of the Department.

IMPROVEMENT OF PAY, PROSPECTS AND TRAVELLING ALLOWANCE OF KANUNGOS IN BENGAL.

REVENUE DEPARTMENT.

MISCELLANEOUS.

CALCUTTA, THE 31ST AUGUST 1914.

RESOLUTION—No. 8518Mis.

THE Governor in Council has for some time had under consideration the question of improving the position of Kanungos in Bengal in respect of their pay, prospects and travelling allowance. The existing rates of pay which were sanctioned in 1881 compare unfavourably with those of other services which have been reorganized within recent years, and the system of grade promotion, which is in force within each division, has led to considerable inequalities and not unjustifiable discontent. His Excellency in Council has accordingly decided that, in order to attract a better and more efficient class of candidates, to widen the field of selection, and to secure a more even flow of promotion, the Kanungo service will in future be on a time-scale of pay instead of on graded pay, and directs that with effect from 1st September 1914 Kanungos in this Presidency will draw pay on a time-scale of Rs. 60 per mensem rising by quadrennial increments of Rs. 10 to Rs. 120 per mensem, as noted on the margin. Increments, when they fall due, will be granted only with the sanction of Commissioners of Divisions, who are authorized and expected to withhold the whole or a portion of the increment in any case if they think fit. Increments should not be granted as a matter of routine, and the full increment should not be allowed, unless a Kanungo's work has been thoroughly satisfactory.

Years of approved service—	Rs.

5 to 8 " ...	70	"
9 to 12 " ..	80	"
13 to 16 " ...	90	"
17 to 20 " ...	100	"
21 to 24 " ...	110	"

2. The sanctioned number of Kanungos at present employed on revenue work in this Presidency is 54, and is distributed as follows among the several divisions :—

Burdwan	Division	11
Presidency	"	16
Dacca	"	14
Chittagong	"	5
Rajshahi	"	8
	Total ...	54

The pay of existing Kanungos on the time-scale will be fixed by Commissioners with reference to the merits of individual officers. As one of the main objects of improving the pay and prospects of Kanungos is to attract a better class of candidates, it is not intended that all existing incumbents should necessarily be allowed the full advantages of the new scale. Incompetent officers, who are on the eve of retirement, need not be admitted to the new scale at all. In the case of other officers, the maximum pay admissible will be that due under the time-scale, counting from the date of their permanent appointment as Kanungos, but Commissioners are authorized to fix lower rates of pay in the case of Kanungos whose work and qualifications are not wholly satisfactory.

3. The appointment, distribution and posting of the staff of Kanungos in each division will be left as hitherto to the discretion of the Commissioner, who will be guided by the requirements of each district, which vary from time to time. All orders regarding such distribution and postings should in each instance be communicated to the Accountant-General, Bengal, and to the District Officers concerned, with particulars of the pay drawn at the time by the Kanungos. The bills on which the charges on account of salaries of Kanungos are drawn should be countersigned by the District Officer before payment.

4. Kanungos who have done exceptionally good work will be eligible for promotion to the Subordinate Civil Service, and His Excellency in Council desires that whenever possible the services of efficient and deserving men should also be utilized as Managers and Sub-Managers of Government and Wards' Estates.

5 Kanungos in this Presidency are, under the sanction accorded by the Government of India, in their letter No. 1655—385-2, dated the 20th October 1913, permitted to draw travelling allowance at the rates ordinarily admissible under the Civil Service Regulations without the restriction contained in entry No. 9 of Appendix 20 to the Civil Service Regulations. These orders do not affect Kanungos employed in the district of Bakarganj, who are in receipt of fixed monthly travelling allowances at the rates laid down in Appendix 20 to the Civil Service Regulations.

6. Revised orders regarding the qualifications and training of candidates for Kanungoships are under consideration and will be issued in due course.

By order of the Governor in Council,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORTS OF THE VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1913-14.

REVENUE DEPARTMENT.

AGRICULTURE.

CALCUTTA, THE 8TH SEPTEMBER 1914.

RESOLUTION—No. 8887.

READ—

The Annual Reports of the Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1913-14, with the Director of Agriculture's review thereof.

THE post of Principal of the Bengal Veterinary College was held by Major Smith throughout the year, while Mr. P. J. Kerr was Superintendent of the Veterinary Department, Bengal, except for the period from the 20th November 1913 to the 22nd February 1914, when he was on leave, and Major Smith held charge of the current duties of the office of the Superintendent in addition to his own duties. Mr. A. D. Macgregor, M.R.C.V.S., on his appointment to the Indian Civil Veterinary Department, was posted for training to the Bengal Veterinary College, which he joined on the 30th March 1914. Major Smith was on tour for 20 days, and Mr. Kerr for 75 days, during which he visited all the districts of the Presidency except three.

2. There was a further slight decrease in the number of students at the College during the year, the number on the roll at the end of the session being 91, of whom 76 were stipendiary students, as against 99 in the preceding year, including 88 stipendiary students. The falling off in the attendance at the College is due partly to the reluctance of most District Boards to increase the Veterinary staff in their employ, and partly to the inadequacy of the prospects open to the lower branches of the Veterinary Service. Measures for removing both these obstacles are under the consideration of Government. The results of the year's work were, on the whole, satisfactory. Twenty-five students graduated from the College at the close of the year, the percentage of passes at the final examination being 73·53 as compared with 67·5 in 1912-13. The Board of Examiners has, however, again very strongly represented that the teaching staff at the College is inadequate to give a proper training in vaccine therapy and in the theory and practice of preventive inoculation. The matter is one of grave importance, as the chief duty of the majority of the graduates of the College in their active careers is the prevention and control of infectious diseases. The Governor in Council has accordingly submitted to the Government of India proposals for increasing the staff of the College, so as to enable it to keep abreast of the modern developments of veterinary science.

3. The Raymond Research Laboratory at the College continued to do useful work in the diagnosis of contagious and obscure diseases. The popularity of the institution is increasing, and cases were sent for examination not only by the Provincial Veterinary Departments, but also by local private practitioners, both European and Indian, and by the general public. The examination of pathological specimens and the conduct of autopses continue to increase in number. Materials were supplied to Colonel W. D. Sutherland, Imperial Serologist, Lieutenant-Colonel Sir Leonard Rogers and Sir John Mcfadyean for their work. One Veterinary Assistant from the Central Provinces and another from Travancore attended the Post-graduate Course at the Laboratory.

4. The report of the Civil Veterinary Department shows that 13,136 deaths of animals from contagious diseases were reported during the year against 8,087 in the previous year. The number of deaths amongst equines

from the principal contagious diseases fell from 373 in the previous year to 279, while the number of deaths amongst bovines increased from 7,637 to 12,847. The increase in the latter case is attributed partly to the fact that rinderpest was more prevalent during the year than in the preceding year and partly to better reporting of outbreaks. There were 10,318 deaths amongst bovines from rinderpest alone against 5,154 in the preceding year. The disease appeared in a somewhat virulent form in the districts of Burdwan, Midnapore, Hooghly, the 24-Parganas, Dacca, Mymensingh and Pabna, but great difficulties were experienced in coping with it, owing to a shortage in the supply of serum on account of the breakdown in the machinery at the Mukteswar Laboratory, and to the heavy floods which occurred in the first three districts, where the work was practically at a standstill for several months. The mortality would have been much greater, but for the excellent results of preventive inoculation in cases in which serum was available. In the area outside Calcutta and its suburbs, the Department dealt with 210 outbreaks of the disease which caused the death of 3,204 uninoculated animals, while out of 23,836 animals which were inoculated, only 159 or 0·6 per cent. died. Similarly there were only 6 deaths among 5,557 animals inoculated for hæmorrhagic septecæmia. In Calcutta and its suburbs 56 outbreaks of rinderpest which occurred mostly during the latter part of the year were promptly attended to by the staff of the Bengal Veterinary College. Inoculation was performed in 1,911 cases, of which only 32 or 1·6 per cent. died.

The Governor in Council notices with satisfaction the improvement which is taking place in reporting the outbreak of infectious and contagious diseases among cattle. Under arrangements recently made such outbreaks will be reported, not only by the police, but also by touring officers of the various Departments of Government and by the Presidents and collecting members of village panchayats, who have been supplied with post-card forms for the purpose. The reports are now sent not only to the local Veterinary Assistants, but also to the Chairman of the District or Local Board concerned, who is thus enabled to call promptly for any further assistance which may be required from the Superintendent of the Civil Veterinary Department. These arrangements should greatly increase the opportunities of the Department for exercising its beneficient functions in staying the course of dangerous epidemic diseases.

5. During the year under report the itinerating Veterinary Assistants visited 9,810 villages and treated 50,598 patients, as against 10,409 villages and 52,705 patients in the previous year. The slight decrease is attributed partly to the fact that foot-and-mouth disease was less prevalent during the year, and partly to the unusually severe outbreaks of rinderpest and hæmorrhagic septecæmia in many districts, owing to which the time of the Veterinary Assistants was fully taken up with the more important duty of inoculation.

The Superintendent of the Veterinary Department has drawn the attention of Government to the reluctance on the part of many District Boards to employ Additional Veterinary Assistants, who are urgently required, and in view of the material addition lately made to their funds by the surrender of the entire Public Works cess, the Governor in Council trusts that District Boards will co-operate whole-heartedly with the Superintendent in the matter.

6. The administration of the Glanders and Farcy Act was conducted smoothly during the year. In Calcutta and its neighbourhood, about 4,000 stables were inspected in the area under the Act, and the disease was detected in nine stables. In the mufassal, 194 deaths were reported against 260 in the preceding year. One hundred and fifty-eight deaths occurred in the Sodepore Pinjrapole, but there were severe outbreaks also at Mymensingh and Rangpur.

The maximum amount of compensation payable for each animal destroyed under the Glanders and Farcy Act was Rs. 100 in the districts in East Bengal and Rs. 50 in West Bengal. The amount has now been fixed by Government at Rs. 100 for the whole Presidency, and it is hoped that the increased rates of compensation will induce owners to report cases promptly

and so assist in the stamping out of the disease. The amount paid as compensation during the year was Rs. 1,339 as compared with Rs. 282 in the previous year.

7. No new dispensary was opened during the year. The total number of patients treated at the existing 18 dispensaries was 21,503 as against 22,106 in the preceding year. The proposal for the establishment of a dispensary at Bakarganj mentioned in the last year's Resolution has been temporarily abandoned, as the District Board have decided not to undertake the work for the present. The establishment of a Veterinary hospital at Dacca has however been sanctioned, and the building work will be taken up shortly.

8. The number of animals sent to the College Hospital for treatment in connection with cases under the Prevention of Cruelty to Animals Act in Calcutta still continues to be small in comparison with the number of prosecutions instituted. The Governor in Council has recently drawn the attention of Magistrates in Calcutta and Alipore to this matter, and has pointed out the futility of punishing owners in cruelty cases by nominal fines without taking advantage of the provisions of the Act, under which animals may be sent to the hospital for medical treatment. It is reported that unfit animals are frequently put to work again immediately after the conclusion of the criminal proceedings. His Excellency in Council hopes that trying Magistrates will cease to regard their duties under the Act as completed when they have punished the owner in fault, and that they will make a reasonable use of their powers to send disabled and diseased animals to the hospital for treatment before they are allowed to resume work.

9. The Superintendent of the Civil Veterinary Department again remarks on the indifference displayed by cattle-owners and the cultivators generally to the efforts which are being made to improve the breed of cattle in this Presidency. It is reported that very little advantage is taken of the stud bulls serving in the various districts, which are the property of the Jail authorities or of the District Boards. His Excellency in Council desires again to impress upon the officers of the Agricultural Department the urgent need for utilizing every opportunity of explaining and demonstrating the benefits that may be derived from the improvement of the live-stock of the country. It is hoped that the cattle farm, which has recently been established at Rangpur, will yield results which will convince the cultivators that it will pay them to devote attention to the improvement and proper care of their cattle.

10. The Governor in Council desires to acknowledge the excellent work done during the year by Major Smith, the Principal of the Bengal Veterinary College, and by Mr. Kerr, Superintendent of the Veterinary Department. His Excellency in Council notices with regret the remarks made by Mr. Kerr regarding the apathy and failure to appreciate their responsibilities displayed by many of the Veterinary Assistants. The improvement of the pay and prospects of the service, when sanctioned, should attract a better class of men, and the services of those who continue to be wilfully inefficient should be dispensed with. The Governor in Council observes with pleasure that the work done by the Inspectors and by the staff of the Bengal Veterinary College was generally satisfactory.

C.

The examination in cases.

The record of a case, such as ordinarily comes before a Canal Officer exercising magisterial powers will be selected by the President of the Examination Committee. The record of the case should consist, as far as possible, of documents recorded in the Court vernacular of the place in which the candidate is employed. The case should not be of special difficulty, and, in selecting it, it should be remembered that officers will only exercise magisterial powers under Bengal Act, III of 1876 (Bengal Irrigation Act).

The record will be read out to candidates by an Indian official. Where possible, the case will be read to each candidate separately, or to small batches. The candidate must write his notes of evidence as the reading proceeds, as he would do were he actually trying the case. At the conclusion of the case the candidate, who may refer to his books, must write (Europeans in English, natives of India in Hindustani, Bengali or English, as they prefer) a judgment on the question or questions at issue, with a statement of reasons. The Examination Committee will merely state their opinion on the merits of each candidate's judgment and not transmit this part of the proceedings.

Officers will be allowed to pass separately in either of the papers A or B or in the case C. Passing marks in each subject will be 50 per cent.

4. The following table shows the particulars of marks assigned to each subject and the time allowed :—

SUBJECT OF EXAMINATION.	Maximum marks.	Pass marks.	Time allowed.
Law paper "A"	120	60	3 hours.
Do. "B"	120	60	3 do.
Examination in *cases* ...	120	60	To be determined by the Local Examination Committee.

Examination in Vernaculars.

5. Subject to the proviso that no Indian member of the Provincial Engineer Service is liable to examination in a language which is his own vernacular, officers of the Public Works Department are required to pass the examination in Bengali by the Lower Standard within two years of joining their appointments in India. They are also required to pass an examination in Hindi by the Higher Standard by the colloquial test within four years of joining their appointments in India. If they fail to do so their increments of pay will be withheld till they pass the examination.

Officers may also, if they so wish, go up for the Higher Standard examination in Bengali within five years of joining their appointments in India.

On an officer passing the Lower Standard examination the fact should be noted in the Classified List and the letters "L.S." should be placed against his name.

6. Officers of the Public Works Department, who pass the Lower Standard examination in Bengali within the time prescribed, viz., two years, are entitled to a reward of Rs. 80.

Those who pass the Higher Standard in Hindi by the colloquial test within four years are also entitled to a reward of Rs. 80.

Those who pass the Higher Standard in Bengali within five years are entitled to a reward of Rs. 120.

Indian officers are eligible for the same reward for passing in a compulsory examination in a vernacular language which is not allied to his mother tongue.

7. Two grades of examination in Bengali are recognized, viz., (I) the Higher Standard and (II) the Lower Standard.

8. The examination specified in grade I above, and the Lower Standard examination specified in grade II above, will be held under the direction and control of the Central Examination Committee.

9. The following are the tests prescribed for the two grades of examination :—

Grade I—The Higher Standard of Departmental Examination.

A.—Dictation. A passage from some official paper in Bengali will be read out to the candidates by a Bengali, and they will be required to write it down in Bengali character with fair accuracy.

B.—A written translation from the vernacular into English.

The paper should contain passages from an unseen official document.

C.—A written translation from English into the vernacular—

A brief passage from an English judgment * or other official document of a somewhat difficult nature, selected by the Central Examination Committee, shall be translated into the vernacular by the examinee without assistance and in a generally correct manner.

D.—*Vivâ-voce* examination in the vernacular—

(*i*) The examinee shall be tested in conversation with several Indians of various classes in such a manner as to satisfy the Examination Committee of his power of making himself understood by

* "The judgment or other official document" will, if possible, relate to matters with which officers of the Publi Works Department are likely to have to deal

them, and of explaining himself with clearness and sufficient propriety in the vernacular in an argument or topic of some difficulty.

(ii) The examinee will be called upon to read with fair fluency and explain in English to the Examiners three papers written by different persons in a plain running hand.

NOTE.—It is not necessary that each candidate should translate the same piece, just as it is not necessary that the vivâ-voce examination of each should involve the same conversation.

10. The maximum and the pass marks assigned to each branch of the examination and the time allowed for the papers are subjoined:—

SUBJECTS OF EXAMINATION.	Maximum marks	Pass marks.	Time.
A.—Dictation	20	10	½ hour.
B.—Translation from Vernacular ...	20	10	2 hours.
C.— Ditto English ...	20	10	2 do.
D.—(i) *Vivâ-voce* Examination ...	20	10	15 minutes.
(ii) *Vivâ-voce* Examination ...	10	5	

Grade II—The Lower Standard of Departmental Examination.

11. For this examination the tests shall be the same as the above, but the papers shall be less difficult. The proportion of marks to be obtained in order to pass, and the time allowed for the papers, shall be the same as for the Higher Standard above described. The principal object of this examination shall be to test the proficiency, for practical purposes, of the examinee in such language.

12. No Indian officer (these rules notwithstanding) shall be liable to examination in a language which is his own vernacular. The Superintending Engineers in submitting the lists of intending examinees to the Public Works Department will consider each case, and, on satisfying themselves, may exempt the candidate from examination in such language, reporting their reasons for doing so to Government.

13. Assistant Engineers should, on arrival in the country, be employed in such a manner as will afford them the experience of work necessary to enable them to pass the examinations laid down in the preceding paragraphs. Cases may, however, occur in which, owing to the exigencies of the public service, illness, or want of time, or opportunity for convening a committee, an officer may not be able to pass the examinations in question within the prescribed period. In such cases an officer may, at the discretion of Government, be afforded a reasonable extension of time up to a limit of one year, and if he passes within this further period no penalty should be enforced. Should, however, he fail to pass within the extended period his increments should be withheld as directed in the preceding paragraphs until such time as he passes. Government may, however, at its discretion, restore an officer whose increments have been withheld to the position in the incremental scale which he would otherwise have held. The officer will not ordinarily be refunded the actual pay he has lost owing to increments being withheld, but will merely be restored to the pay he would have drawn but for his failure to pass the examinations within the prescribed period. In very special cases, however, Government reserve the right to refund the pay lost for not passing the examinations within the extended period.

An officer of under 12 years' service who is transferred from another province where a different vernacular is current from the one prescribed for Bengal to this Presidency, may, at the discretion of Government, be required to pass the Lower Standard in Bengali within two years and the Higher Standard in Hindi by the colloquial test within four years of such transfer; and should he fail to do so he will be liable to the loss of further increments until he has passed.

COMMITTEE TO CONSIDER THE QUESTION OF EDUCATION OF HINDU GIRLS.

GENERAL DEPARTMENT.

EDUCATION.

CALCUTTA, THE 10TH SEPTEMBER 1914.

RESOLUTION—No. 3495.

THE Governor in Council has recently had under consideration various questions in connexion with the education of Indian girls. It has been impressed upon him that whereas there exist on the one hand a certain number of primary schools for girls, and on the other hand a certain number of high schools which prepare girls for the Matriculation examination of the University and from which in some cases girls pass to University courses, there is practically no institution which provides for the needs of those girls of Hindu families whose parents desire that they should be educated but feel that their system of education should be designed with a view to the lives which they will subsequently be called upon to lead, and should be in accordance with the domestic and social ideals of the society to which they belong.

2. His Excellency is aware that the desire of the Hindu section of the people of the Presidency that their girls should be educated has increased considerably of late and is still increasing. He is also informed that, owing partly to economic causes and partly to a general modification of ideas on the subject, there is a tendency to postpone the age at which Hindu girls are married. The present time is in fact in every way favourable for expansion and development, but His Excellency is also conscious of a strong feeling among some of the most prominent and enlightened members of Hindu society that the present secondary school curriculum with the Matriculation examination, as its one objective is not adapted to the needs of Hindu girls.

3. It has been suggested to Lord Carmichael that the object of school education for Hindu girls should be to give them instruction which will be of use to them in their future domestic life as wives in Hindu households, and which would stand them in good stead, should early widowhood or some other unforeseen calamity throw them on their own resources; that the course of instruction for the majority should be self-contained and capable of being completed by the age of 14; that English should be taught as a second language, and that the domestic arts, such as sewing and cooking, should figure prominently in the curriculum. It has also been suggested that, without violating the principle of religious neutrality, Government might do more than it does at present in the direction of providing facilities for the education of Hindu girls on lines consistent with the best traditions of Hinduism.

4. The Governor in Council would be strongly opposed to any curtailment of the facilities which now exist for imparting secondary or University education to Bengali girls of all classes. His Government are doing what they can to develop these facilities and to improve them, but it seems to His Excellency that the question raised above is distinct from that involved in the improvement of secondary schools and University colleges. It may be that some girls would pass from such a course as has been adumbrated in last paragraph to an ordinary secondary school course leading on to a University education. On the other hand it may be thought to be desirable that arrangements should be made in a few special institutions which might be conducted on a specifically Hindu basis for imparting more advanced instruction in literature and science. These are points for consideration.

The crux of the present position is the question what education should be given to Hindu girls and under what conditions.

5. His Excellency is aware that this is a question which can only be answered by the Hindu community itself, and he feels that the time has come when his Government would do well to ask that community to formulate its feelings and aspirations in the matter of the education of its girls. In these circumstances the Governor in Council has decided to appoint a Committee consisting of the ladies and gentlemen whose names are given below to consider the whole question and to report to Government in due course the result of their deliberations :—

1. The Hon'ble Justice Sir Ashutosh Mookerjee, KT., C.S.I., M.A., D.L., *President*.
2. Sir Guru Das Banerjee, KT., M.A., D.L.
3. Maharaja Sir Girija Nath Ray Bahadur, K.C.I.E., of Dinajpur.
4. Maharaja Kumud Chandra Singh of Susang.
5. Raja Gopendra Krishna Deb, M.A., B.L.
6. The Hon'ble Babu Mahendra Nath Ray, C.I.E.
7. The Hon'ble Dr. Nilratan Sircar, M.A., M.D.
8. Mahamahopadhyaya Kali Prasanna Bhattacharjee (*ex*-Principal, Sanskrit College).
9. Rai Jadu Nath Mazumdar Bahadur of Jessore.
10. Rai Pyari Mohan Basu Bahadur.
11. Mrs. S. C. Mookerjee.
12. Mrs. Saralabala Mitter (Lady Principal, Calcutta Female Training School).

Mrs. Kumudini Das, of the Bengal Provincial Educational Service will act as Secretary to the Committee.

6. The terms of reference to the Committee are as follows :—

(*i*) to consider and report on the existing facilities for the education of Hindu girls and the extent to which the various sections of Hindu society avail themselves of the several agencies which are now employed ;

(*ii*) to consider and report in detail on the extent to which the existing facilities are adequate and satisfactory ;

(*iii*) to make detailed suggestions, with approximate estimates of cost for remedying any defects which the Committee finds to exist.

7. It has been suggested to His Excellency that a school for Hindu girls to be conducted on *parda* lines should be established in Calcutta. Lord Carmichael desires to direct the attention of the Committee to this suggestion. One of the most important points with which the Committee will have to deal is the question whether the provision of such additional educational facilities, if any, as it may decide to recommend, should be made through the agency of schools under the direct management of Government or privately-managed schools in receipt, if necessary, of grants-in-aid.

8. The Governor in Council leaves it to the President of the Committee to consult the members and then to issue directions to the Secretary for the calling of meetings and for the general procedure in accordance with which the deliberations of the Committee will be carried on. His Excellency is alive to the vital importance of the issues involved, and though he is anxious that the submission of the report should not be delayed any longer than is necessary, he desires that the Committee should have full time to collect all the pertinent facts and opinions and to deliberate duly thereon.

By order of the Governor in Council,

H. F. SAMMAN,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE BENGAL SMOKE NUISANCES COMMISSION, FOR THE YEAR 1913-14.

No. 3327 Marine.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

Calcutta, the 12th September 1914.

RESOLUTION.

READ—

The annual report of the Bengal Smoke Nuisances Commission, for the year 1913-14.

THE Commission held 12 meetings during the year 1913-14.

2. The Inspectors of the Department made 6,119 observations of smoke emissions during the year under report against 4,683 in the previous year. They also visited 4,269 factories against 246 in 1912-13 for the purposes of inspection, imparting instruction to the employés and testing the fuel and appliances.

3. As a result of the adoption of the revised scale of limits of time for the emission of dense smoke there was steady improvement in curtailing the emission of smoke of the greatest density known as "scale No. 6."

4. Under the rules as they stand the furnaces of ocean-going steamers are exempt from the operation of the Bengal Smoke Nuisances Act, 1905, for two hours prior to their leaving moorings. Notwithstanding repeated warnings, there has been a great increase in the smoke nuisance caused by these steamers. The Commission have therefore suggested that the concession should be withdrawn or substantially modified. The matter is under the consideration of Government.

5. The working of the Act during the past eight years has shown that it is necessary to take action in respect of smoke nuisance caused by chimneys, and steam-engines used for generating electricity in clubs, hotels and similar institutions. It is proposed to bring these institutions under the provisions of the Act as is done in the United Kingdom, and to deal effectively with the nuisance caused by coke-making in open heaps without ovens or proper appliances. An amendment of the Act to remedy these defects is under the consideration of Government.

6. Forty complaints made by the public were adequately dealt with by the Commission. Government note with satisfaction the confidence which the public continue to have in the Commission.

Forty-three statutory warnings were served with good results in every case. The same number of prosecutions were instituted resulting in conviction in every case.

Government appreciate the assistance afforded to the Smoke Nuisance Commission by the action taken by owners of factories in dealing with their employés when offences were reported against them.

7. An important step during the year under review in the direction of abating smoke emission was the inauguration by the Commission of a scheme of examination for the grant of certificates of competency as stokers. This will enable employers to obtain the services of certificated stokers, and will also conduce to the efficient working of the Commission.

8. There was a steady increase in the replacement of steam-engines and boilers by electric, oil and gas motors and heaters. During the year under report 154 electric motors were installed against 100 in the previous year. There was also an increase in gas and oil motors.

9. The Governor in Council takes this opportunity of thanking the public and the owners of factories for the help they afforded the Commission in carrying out the administration of the Smoke Nuisance Act.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Government of India, Commerce and Industry Department ; the President of the Smoke Nuisances Commission ; the Commissioners of Presidency and Burdwan Divisions ; the Commissioner of Police, Calcutta ; the Chairman, Calcutta Corporation ; the Vice-Chairman, Port Commissioners, Calcutta ; the Secretary, Bengal Chamber of Commerce ; the Secretary, Calcutta Trades Association ; the Honorary Secretary to the Bengal National Chamber of Commerce ; the Vice-President of the City Improvement Trust, Calcutta ; and the Municipal Department of this Government.

Ordered, also, that the Resolution be published in the *Calcutta Gazette.*

By order of the Governor in Council,

A. C. J. DE LOTBINIÈRE, LT.-COL., R.E.,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CHITTAGONG FOR THE YEAR 1913-14.

No. 3374 Marine.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

Dated Calcutta, the 15th September 1914.

RESOLUTION.

READ—

The Administration Report of the Commissioners for the Port of Chittagong for the year 1913-14.

Income.—The ordinary income of the Port Fund during the year (exclusive of the Government grant of Rs. 1,50,000 for the improvement of the Port) amounted to Rs. 2,35,758 against Rs. 2,30,235 of the preceding year. The latter includes Rs. 874 on account of interest on investments from the Revetment and Dredger accounts, which was not taken into account in arriving at the total receipts for the year 1912-13. The increase was shared under the heads "Rentable lands and buildings," "Port," "Port approaches" and "River dues" and was due to increased rent realised and to the greater activity in traffic and shipping of the port ; there was, however, a fall in the export of jute.

The capital value of the Port Commissioners' properties including lighthouses, lands, works finished and in progress, stock materials, vessels, cash and securities, etc., was estimated, on the 31st March 1914, to be

Rs. 35,17,825 as against Rs. 35,36,306 at the close of the preceding year. The liabilities of the Port and Pilotage Funds (excluding the loans from Government for revetment work) amounted to Rs. 1,06,302.

Expenditure.—The expenditure of the Port Fund, including that on Revetment and Dredger was Rs. 2,89,587 as against Rs. 3,46,522. The decrease was due to restricted expenditure and savings in establishment charges and in revetment work including closing of the bye-channel.

No loan was taken by the Commissioners during the year. The outstanding balance of loans for revetment work was Rs. 5,69,462. The Capital expenditure incurred from the Port Fund was Rs. 7,993.

Dredging.—The dredger *Karnafuli I* did satisfactory work. She was laid up for repairs from the first week of February to the end of April 1914. The depth of water maintained over the main track of the outer bar was 13 feet. Dredging was also carried out from the middle of November 1913 to end of January 1914 over the patches formed by the monsoon deposits. In the inner bar the shoaling continued owing to heavy freshets which caused erosion of the banks and carried down to the bars several thousand tons of silt. a depth of 13 feet was maintained by the middle of January 1914. The question of providing a second dredger with a fleet of hopper barges for the improvement of the Port has already been acknowledged by Government to be of great importance, but owing to the international crisis and the need for economy further consideration of the question has been postponed. The matter will be reconsidered as soon as possible.

River Surveys.—A survey of the main river from the mouth to the Auti Muhamed Ghat (except the inner bar) was completed and plotted. The whole of the bye-channel was also surveyed by the special survey establishment. The inner and outer bars were periodically sounded and plotted.

CALCUTTA,
The 15th September 1914.

A. N. MITRA,
Under-Secy. to the Govt. of Bengal.

STATEMENTS SHOWING THE QUANTITIES OF THE PRINCIPAL STAPLES OF TRAFFIC IMPORTED INTO AND EXPORTED FROM CALCUTTA IN THE THREE MONTHS OF APRIL TO JUNE 1914.

Note.—The following statements showing the trade of Calcutta in certain selected articles by all routes have been compiled in the Department of Statistics from figures supplied by the Collector of Customs, Calcutta, Railway Audit offices, Steamer Companies, Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah and the Assistant Engineer, Calcutta Canals.

The fluctuations in the trade compared with the figures for the three months of April to June 1913 are as stated below:—

The decrease in the imports of wheat from the United Provinces of Agra and Oudh and from the Central Provinces and of other food-grains from the United Provinces may be attributed to famine conditions prevailing in those regions. Trade in refined sugar and cotton piece-goods, Indian, has also declined owing to less imports from Madras and Bombay, respectively. More imports of rice from Burma, of gunny bags from Bengal and of tea, Indian, from Bengal and Assam have caused an increase in trade of these articles. There is a decrease in the exports by sea to foreign countries of rice, wheat, gram and pulse, indigo, and unmanufactured tobacco and an increase in the exports of raw cotton, linseed and manufactured tobacco.

NOTIFICATION.

No. 1936-I.A.

Simla, the 16th September, 1914.

THE following gracious message from His Majesty the King-Emperor to the Princes and peoples of the Indian Empire is published for general information:—

During the past few weeks the peoples of my whole Empire at home and overseas have moved with one mind and purpose to confront and overthrow an unparalleled assault upon the continuity, civilisation and peace of mankind. The calamitous conflict is not of my seeking. My voice has been cast throughout on the side of peace. My Ministers earnestly strove to allay the causes of strife and to appease differences with which my Empire was not concerned. Had I stood aside when, in defiance of pledges to which my Kingdom was a party, the soil of Belgium was violated and her cities laid desolate, when the very life of the French nation was threatened with extinction, I should have sacrificed my honour and given to destruction the liberties of my Empire and of mankind. I rejoice that every part of the Empire is with me in this decision. Paramount regard for treaty faith and pledged word of Rulers and peoples is the common heritage of England and India. Amongst the many incidents that have marked the unanimous uprising of the populations of my Empire in defence of its unity and integrity, nothing has moved me more than the passionate devotion to my Throne expressed both by my Indian subjects and by Feudatory Princes and Ruling Chiefs of India and their

prodigal offers of their lives and their resources in the cause of the realm. Their one-voiced demand to be foremost in conflict has touched my heart and has inspired to highest issues the love and devotion which, as I well know, have ever linked my Indian subjects and myself. I recall to mind India's gracious message to the British nation of good-will and fellowship which greeted my return in February 1912 after the solemn ceremony of my Coronation Durbar at Delhi, and I find in this hour of trial a full harvest and a noble fulfilment of the assurance given by you that the destinies of Great Britain and India are indissolubly linked.

If the property is declared to be above Rs. 20 in value, the certificate-holder shall pay the costs of issuing the proclamation of sale. If, however, the value of the property, having been declared to be Rs. 20 or under, should be found, as determined by rule 14, to exceed Rs. 20, the certificate-holder shall pay the costs of issuing the proclamation of sale immediately on receipt of notice of attachment.

Procedure for the attachment of movable property when its value is up to Rs. 20 or above.

14. When the attaching officer believes that the property attached does not exceed Rs. 20 in value, he shall inform the debtor or, in his absence, any present adult member of his family, that it will be sold by public auction at once without the issue of any proclamation. In case the certificate-holder or the certificate-debtor, or any person on his

behalf, objects to this, the attaching officer will convoke a panchayat of not less than three respectable adult male inhabitants of the neighbourhood, of whom ordinarily the headman of the village should be one, and will require them to assess the value of the property. If they determine that it exceeds Rs. 20 in value, he shall deal with it according to the rules for the sale of movable property exceeding Rs. 20 in value, otherwise he shall forthwith proceed to sell it by auction, after giving such reasonable notice as the circumstances of the case admit of to intending purchasers.

15. Where the property to be attached is movable property (other than agricultural produce) in the possession of the certificate-debtor, the attachment shall be made by actual seizure, and the attaching officer shall keep the property in his own custody or in the custody of one of his subordinates, and shall be responsible for the due custody thereof :

and another copy on the outer door or on some other conspicuous part of the house in which the certificate-debtor ordinarily resides, or, with the leave of the Certificate-officer, on the outer door or on some other conspicuous part of the house in which he carries on business or personally works for gain, or in which he is known to have last resided or carried on business or personally worked for gain;

and the produce shall thereupon be deemed to have passed into the possession of the Certificate-officer.

(2) Subject to such conditions as may be imposed by the Certificate-officer in this behalf, either in the order of attachment or in any subsequent order, the certificate-debtor may tend, cut, gather and store the produce and do any other act necessary for maturing or preserving it; and, if the certificate-debtor fails to do all or any of such acts, the certificate holder may, with the permission of the Certificate officer and subject to the like conditions, do all or any of them either by himself or by any person appointed by him in this behalf, and the costs incurred by the certificate-holder shall be recoverable from the certificate-debtor as if they were included in the certificate.

(3) Agricultural produce attached as a growing crop shall not be deemed to have ceased to be under attachment or to require re-attachment merely because it has been severed from the soil.

(4) Where an order for the attachment of a growing crop has been made at a considerable time before the crop is likely to be fit to be cut or gathered, the Certificate-officer may suspend the execution of the order for such time as he thinks fit, and may, in his discretion, make a further order prohibiting the removal of the crop pending the execution of the order of attachment.

(5) A growing crop which from its nature does not admit of being stored shall not be attached under this rule at any time less than twenty days before the time at which it is likely to be fit to be cut or gathered.

Attachment of debt, share, and other movable property not in possession of certificate-debtor.

18. (1) In the case of—

(a) a debt not secured by a negotiable instrument,

(b) a share in the capital of a Corporation, or

(c) other movable property not in the possession of the certificate-debtor, except property deposited in, or in the custody of, any Court,

19. (*2*) Where the attachable proportion of such salary or allowances is already being withheld and remitted to a Certificate-officer or to a Civil Court in pursuance of a previous and unsatisfied order of attachment, the officer appointed by the Local Government in this behalf shall forthwith return the subsequent order to the Certificate-officer issuing it, with a full statement of all the particulars of the existing attachment.

(*3*) Every order made under this rule, unless it is returned in accordance with the provisions of sub-rule (*2*), shall, without further notice or other process, bind the Government or the Railway Company or Local Authority, as the case may be, and the Government or the Railway Company or Local Authority, as the case may be, shall be liable for any sum paid in contravention of this rule.

Provided that, if it appears that for any reason the number of days fixed by the Certificate-officer under this rule, and in respect of which fees have been paid, is likely to be exceeded and the certificate-holder desires to maintain the attachment, the certificate-holder shall apply to the Certificate-officer to fix such further number of days as may be necessary and the additional fees in respect thereof shall be paid in the manner provided in sub-rule (3) below. If such additional fees be not paid within the period originally fixed and in respect of which fees have been paid, the attachment shall cease on the expiry of that period.

Provided that no such investigation shall be made where the Certificate-officer considers that the claim or objection was designedly or unnecessarily delayed.

Evidence to be adduced.

the Certificate-officer shall make an order releasing the property, wholly or to such extent as he thinks fit, from attachment or sale.

No. 1936-I.A.—The following gracious message from His Majesty the King-Emperor to the Princes and peoples of the Indian Empire is published for general information :—

During the past few weeks the peoples of my whole Empire at home and overseas have moved with one mind and purpose to confront and overthow an unparalleled assault upon the continuity, civilisation and peace of mankind. The calamitous conflict is not of my seeking. My voice has been cast throughout on the side of peace. My Ministers earnestly strove to allay the causes of strife and to appease differences with which my Empire was not concerned. Had I stood aside when, in defiance of pledges to which my Kingdom was a party, the soil of Belgium was violated and her cities laid desolate, when the very life of the French nation was threatened with extinction, I should have sacrificed my honour and given to destruction the liberties of my Empire and of mankind. I rejoice that every part of the Empire is with me in this decision. Paramount regard for treaty faith and pledged word of Rulers and peoples is the common heritage of England and India. Amongst the many incidents that have marked the unanimous uprising of the populations of my Empire in defence of its unity and integrity, nothing has moved me more than the passionate devotion to my Throne expressed both by my Indian subjects and by Feudatory Princes and Ruling Chiefs of India and their prodigal offers of their lives and their resources in the cause of the realm. Their one-voiced demand to be foremost in conflict has touched my heart and has inspired to highest issues the love and devotion which, as I well know, have ever linked my Indian subjects and myself. I recall to mind India's gracious message to the British nation of good-will and fellowship which greeted my return in February 1912 after the solemn ceremony of my Coronation Durbar at Delhi, and I find in this hour of trial a full harvest and a noble fulfilment of the assurance given by you that the destinies of Great Britain and India are indissolubly linked.

PRESENT.

The King's Most Excellent Majesty in Council.

Whereas it is desirable that the naval operations of the allied forces so far as they affect neutral ships and commerce should be conducted on similar principles, and

Whereas the Governments of France and Russia have informed His Majesty's Government that during the present hostilities it is their intention to act in accordance with the provisions of the Convention known as the Declaration of London, signed on the 26th day of February, 1909, so far as may be practicable.

NOW, THEREFORE, His Majesty, by and with the advice of His Privy-Council, is pleased to order, and it is hereby ordered, that during the present hostilities the Convention known as the Declaration of London shall, subject to the following additions and modifications, be adopted and put in force by His Majesty's Government as if the same had been ratified by His Majesty:—

(3) The destination referred to in article 33 may be inferred from any sufficient evidence, and (in addition to the presumption laid down in article 34) shall be presumed to exist if the goods are consigned to or for an agent of the Enemy State or to or for a merchant or other person under the control of the authorities of the Enemy State.

(4) The existence of a blockade shall be presumed to be known—

(a) to all ships which sailed from or touched at an enemy port a sufficient time after the notification of the blockade to the local authorities to have enabled the enemy Government to make known the existence of the blockade;

(b) to all ships which sailed from or touched at a British or allied port after the publication of the declaration of blockade.

(5) Notwithstanding the provisions of article 35 of the said Declaration, conditional contraband, if shown to have the destination referred to in article 33, is liable to capture to whatever port the vessel is bound and at whatever port the cargo is to be discharged.

(6) The General Report of the Drafting Committee on the said Declaration presented to the Naval Conference and adopted by the Conference at the eleventh plenary meeting on February 25th, 1909, shall be considered by all Prize Courts as an authoritative statement of the meaning and intention of the said Declaration, and such Courts shall construe and interpret the provisions of the said Declaration by the light of the commentary given herein.

And the Lords Commissioners of his Majesty's Treasury, the Lords Commissioners of the Admiralty, and each of His Majesty's Principal Secretaries of State, the President of the Probate, Divorce and Admiralty Division of the High Court of Justice, all other Judges of His Majesty's Prize Courts, and all Governors, Officers and Authorities whom it may concern, are to give the necessary directions herein as to them may respectively appertain.

No. 2454M.—The 21st September 1914.—The following draft of rules and conditions which the Governor in Council proposes to make and impose, under section 290 of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), for the Howrah Municipality, in supersession of the Rules published under Notification No. 228M., dated the 15th January 1897, at page 12 of Part IB of the *Calcutta Gazette* of the 20th idem, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 2nd November 1914 and any objection or suggestion received by the undersigned before that date will be duly considered.

Draft Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow the owner or occupier of any holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less that Rs. 50 or such higher amount as may be fixed from time to time by the Commissioners at a meeting, to lay communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied free of cost at the Municipal office; and the work must be commenced within three months from the date of sanction, failing which the sanction shall be deemed to be withdrawn, and a fresh application and sanction shall be required.

2. A fee of Re. 1 must be paid to the Commissioners by such owner or occupier for each new connection or for each addition to, or alteration in, an existing connection before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. No person other than the Licensed Plumbers will be allowed to execute any work in connection with the supply of water to any holding as contemplated in Part VII of the Bengal Municipal Act.

4. (1) The owner or occupier of the holding in respect of which the connection is required must, on applying for the connection, pay the entire cost thereof, including the cost of the supply and fixing of the fittings referred to in rule 8.

(2) The applicant for the connection must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains, or pipes and the cost of such other works as may be necessitated by, or result from, the work of making such connection, and also all charges for which the Commissioners may become liable in respect of any of the matters referred to in this sub-rule.

5. Each holding must have a separate connection, and extensions from the communication-pipe of one holding to another shall not be permitted. Connections, however, may be allowed from a common communication-pipe provided that such pipe is laid in a street or common passage, and that a separate stop-cock and meter is fixed to each such connection.

6. Every connection with municipal water-mains must be made under the supervision of an officer appointed by the Commissioners in this behalf and no such connection shall be made except at such time as may be appointed and in such position as may be selected, by an authorised Municipal officer.

7. No connection shall be allowed to the rising main except with the permission of the Commissioners at a meeting.

8. A holding connection shall comprise the following parts or fittings :—

(*a*) a brass or gun-metal ferrule inserted in the main supply-pipe ;

(*b*) a galvanized iron communication-pipe from the ferrule to the meter ;

(*c*) a stop-cock and its surface box ;

(*d*) a meter.

(*e*) service-pipes from the stop-cock to the taps ; and

(*f*) taps.

9. Of the fittings referred to in rule 8, those specified under (*a*), (*c*) (*d*) and (*f*) shall be of such pattern as may from time to time be fixed by the Commissioners at a meeting and shall be supplied by the Commissioners at such rates as may from time to time be fixed by them at a meeting.

10. All communication-pipes and service-pipes shall be inspected and stamped by an officer authorized by the Commissioners before being fixed.

11. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 8 and the number of taps should be fixed in accordance with the annual valuation of the holdings as follows :—

Annual valuation of holding.		Size of ferrule.	Diameter of communication-pipe.	Number of taps.
Under Rs. 200	...	¼″	½″	2
From Rs. 200 to 499	...	¼″	½″	3
From „ 500 to 799	...	⅜″	⅝″	4
From „ 800 to 1,199	...	½″	¾″	5
From „ 1.200 to 1,999	...	⅝″	⅞″	6
From „ 2,000 to 3,000	...	¾″	1″	7

Over Rs. 3,000 one additional tap for every additional Rs. 1,000 in the annual valuation of the holding.

Provided that though the communication-pipe shall not ordinarily be more than ¼″ larger in diameter than the ferrule, yet the Engineer, may, under special circumstances, fix the size of the communication-pipe with reference to the length of the pipe and the prevailing pressure.

12. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until this test has been applied by the Commissioners.

13. No connection shall be allowed to any holding unless the Engineer is satisfied that such holding is provided with means of efficient drainage for waste water.

14 (*a*). On every communication-pipe, a brass or gun-metal stop-cock, stop-cock having the same waterway as such pipe, shall be placed outside the holding to be supplied, but as near as practicable to the point where that pipe enters the holding.

(*b*) The stop-cock shall be built in a brick-chamber provided with a surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(*c*) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

15(*a*). The meter shall be placed as near to the stop-cock as possible, and in a position where it can be conveniently examined.

(*b*) The meter must be fixed in a brick-chamber covered over with a surface box of approved pattern.

16. The Commissioners shall depute an authorised person to read every meter not less than once a quarter and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

17. Every tap shall be of the same size as the pipe to which it is attached, and shall be of brass and of the pattern known as screw-down, or of such other pattern as may from time to time be approved by the Commissioners at a meeting. Every tap shall, except with the special permission of the Commissioners, be at least three feet above the road level.

18. No communication-pipe or service-pipe shall be laid along or adjacent to any drain or watercourse or in any place where, in the opinion of the Engineer, there is risk or likelihood of the water in such pipe becoming contaminated.

19. Whenever a communication-pipe has to be laid across a sewer or open drain, or in any place where, in the opinion of the Engineer, it is liable to injury, such pipe must be passed through a cast-iron pipe of sufficient length and strength to afford due protection.

20. The Commissioners may cut off the connection between any water-works of the Municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely:—

(*a*) if the holding is unoccupied;

(*b*) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorized under this Act or under any bye-law or rule framed under this Act, or prevents such officer from making such examination or inspection;

(*c*) if the owner or occupier of the holding touches or interferes with his meter in any way except with the permission of the Chairman or wilfully or negligently injures or damages it;

(*d*) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood;

(*e*) if the owner or occupier of any holding which is supplied with water under these rules shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same:

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (*d*) an officer authorized by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

21. In all cases in which disputes arise as to the size or quality of pipes or fittings or in which these rules do not apply an appeal against the orders of the Chairman or Engineer, as the case may be, shall lie to the Commissioners in meeting whose decision shall be final, provided that no appeal shall lie against an order passed under rule 20 unless and until such order has been complied with.

PUBLIC WORKS DEPARTMENT, BENGAL.

DISTRICT ROAD FUND.

Notification dated 17th September 1914.—The subjoined abstract of the annual report and accounts of the District Road Committee of the Darjeeling district for the year 1913-14 is published for general information.

H. H. GREEN,
Secy. to the Govt. of Bengal.

Copy of letter No. 346P.W.—XVI-2-2, dated the 11th July 1914, from C. A. RADICE, ESQ., I.C.S., *Officiating Commissioner of the Rajshahi Division, to the Secretary to the Government of Bengal, Public Works Department.*

I HAVE the honour to forward herewith the report on the administration of the District Road Committee, Darjeeling, together with the annual accounts for the year 1913-14. The outstanding cash balance of Rs. 35,487-5-4 and the unadjusted advances amounting to Rs. 18,619-9-11 are very large, and the Chairman has been asked to state what steps he proposes taking to ensure spending during the current year a much higher proportion of the income.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1913-14.

[*Vide* letter No. 108R.F., dated 23rd June 1914, from J. T. Rankin, Esq., I.C.S., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

1. *Working of Committees.*—(*a*) *District Road Committee.*—There were 18 members—6 official and 12 non-official. Ten meetings were held during the year 1913-14, and the average attendance was 9·3 or 90 per cent.

(*b*) *Kurseong Branch Committee.*—The total number of members was 9, of whom 2 were officials. Six meetings were held, and the average attendance was 4·66 or 66·66 per cent.

(*c*) *Terai Branch Committee.*—The Committee consisted of 18 members, of whom 5 were officials. Nine meetings were held, and the average attendance was 7·88 or 43·22 per cent.

2. The year opened with a cash balance of Rs. 24,567-3-9 and an outstanding advance of Rs. 5,978-6-1. Altogether Rs. 30,545-9-10 was available for expenditure during the year. The total receipts and expenditure during the year (1913-14) amounted to Rs. 1,00,925-6-10 and Rs. 46,818-7-7 respectively, leaving a cash balance of Rs. 35,487-5-4 and an unadjusted advance of Rs. 18,619-9-11. The closing balance exceeded one quarter's *kist*. It was unduly large owing to certain unforseen events preceding the execution of some of the new and repair works which it had been proposed to carry out during the year. A portion of the balance, however, was actually spent, but no accounts were received and no adjustments could be made during the year 1913-14.

RECEIPTS.

3. *Provincial Rates.*—The road-cess was levied during the year 1913-14 in the district, at the rate of six pies in the rupee. The amount collected under the head "Cess on lands" was Rs. 55,117-2-6, against Rs. 26,133 in the preceding year. The increase was mainly due to the Public Works cess being surrendered to the District Road Committee during the year.

4. *Contributions.*—(*a*) *Grant from Government.*—A sum of Rs. 8,137-6-6 was credited under this head during the year, including a grant of Rs. 4,622 for augmenting the resources of the Committee. Rupees 9,785-6-1 was the total grant of the preceding year (1912-13). The decrease was due to the deduction in augmentation of resources.

(*b*) A sum of Rs. 7,119 was received from the Darjeeling Improvement Fund as its annual contribution for communications and its share of the cost of the cess and tauzi joint establishment.

(*c*) No contributions from private persons were received during the year.

EXPENDITURE.

5. *Original Works.*—Estimates of Rs. 8,981, Rs. 4,700 and Rs. 3,314 were sanctioned for the construction of the Singballi bridge on a new site, suspension bridge over Rungmook river, and Bone bridge on road No. 32 respectively, but only Rs. 394-1-11 and Rs. 712-4-1 were spent during the year on account of the Singballi and Bone bridges respectively. No accounts were received for the Rungmook bridge.

6. *Repairs.*—Rupees 26,556-14-8 as detailed below were spent on repairs, as against Rs. 21,589-0-9 in the preceding year. The increase is due mainly to the adjustment during 1913-14 of the advances made in the preceding year:—

8. A sum of Rs. 154-9-6 was spent during 1913-14 on sign-boards for certain roads.

9. A sum of Rs. 3,023-14-9 was spent on iron railings for dangerous parts of certain hill roads.

10. *Public Works Establishment.*—There is no District Engineer under this District Road Committee. All the work in the hills and most of that in the Terai is executed by other members of the Committee and Managers of Tea Gardens and private gentlemen. The thanks of the Committee are due to them for their valuable assistance. Important road-cess bridges were repaired by the Public Works Department as usual at the expense of the Committee. A sum of Rs. 1,115-3-11, including contingencies, was spent for the entertainment of an overseer and a peon under the Terai Branch Road Committee. The pay of the overseer was Rs. 60, plus a fixed horse allowance of Rs. 20 and that of the peon Rs. 7 per mensem.

11. *Tools and Plant.*—A sum of Rs. 597 was spent under this head during the year.

12. *Contribution.*—A sum of Rs. 1,000 was paid to the Deputy Conservator of Forests, Darjeeling Division, for the construction of bridges over Palamjua and Ludma Kholas. A sum of Rs. 1,000 was paid also to the Darjeeling Improvement Fund for the construction of a bridge between this district and Sikkim.

13. *Loans.*—No fresh loan was taken during the year. Rupees 5,487-9-10 was paid as principal and Rs. 1,823-7-10 as interest on loans previously granted by Government.

14. *Administration.*—There are two Branch Committees under the District Road Committee, viz., Kurseong and Terai. Messrs. J. Lang and S. G. Hart, successive Deputy Commissioners, were *ex-officio* Chairmen of the District Road Committee and of the Terai Branch Road Committee during

the year. Mr. F. G. E. Piffard, the Senior Deputy Collector, was the Vice-Chairman of the District Road Committee during the year. Messrs. C. Bartley, F. W. Robertson, and A. A. Patterson, successive Subdivisional Officers of Kurseong, were Chairmen of the Kurseong Committee and Vice-Chairmen of the Terai Branch Road Committee. Dr. A. D. Humphry, Civil Medical Officer of Kurseong, was the Vice-Chairman of the Kurseong Branch Road Committee throughout the year. Members of the District and Branch Committees took an active and practical interest in the roads under their supervision. Acknowledgments are due to them and to the officers above-named.

15. *Audit of Accounts.*—The members of the Audit Sub-Committee have audited the accounts for the whole year and the Examiner of Local Accounts, Bengal, has audited up to July 1913.

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit the following consolidated report on the administration of the Salt Department for the year 1913-14. The report deals with preventive operations in the saliferous districts of the Presidency, which were under the control of the Commissioner of Excise and Salt, and with the importation and issues of salt under the control of the Customs authorities.

2. **Charge of Department.**—I was in charge of the department throughout the year.

CHAPTER I.

General.

* * * * * *

4. **Credit system of payment of duty.**—There was a considerable increase in the operations under the Salt credit system. From the statement furnished by the Collector of Customs, Calcutta, it appears that securities to the extent of Rs. 50,16,500 were deposited during the year against Rs. 43,62,800 in 1912-13. The quantity of salt issued under the system amounted to 10,000,493 maunds against 7,444,990 maunds in the previous year. There were 44 depositors during the year, nine of whom closed their accounts, leaving a balance of 35.

5. **Extension of the Salt-bonding accommodation at Sulkea and replacement of turn-tables.**—The Sulkea Extension Scheme was practically completed during the year, the only outstanding works being the construction of brick footpaths round the new *golas* and the addition of cradles to the old pontoons. A special grant of Rs. 11,142 was allotted for replacing the four turntables at the north end of the Sulkea yard by two larger ones, but the East Indian Railway authorities unfortunately found themselves unable to take the work in hand before the year closed. The proposed closing of the Kidderpore *golas* was strongly opposed by some of the Salt merchants, who appealed to Government for their retention. The question was referred to the Port Facilities Committee who have reported that they do not consider that the Kidderpore *golas* should continue after the completion of the Sulkea Extension Scheme. Notice was served on the bonders to the effect that no more salt would be received there after the end of April 1914 though deliveries would continue after that date.

6. **Construction of Salt golas at Chittagong.**—The two salt *golas*, each of 10,000 tons' capacity, have not yet been completed, but salt has recently been stored in one of them. The completion of the Salt *golas* scheme will prove most beneficial to the salt trade of the port as it has hitherto been handicapped for want of sufficient *gola* accommodation.

As no space was available at the Government *golas* and the private licensed warehouses, two temporary *golas* were constructed departmentally for the storage of salt.

CHAPTER II.

Stocks, Imports and clearances.

7. **Accounts of stocks and issues.**—The stocks, imports and clearances of salt in and from the ports of Calcutta and Chittagong for the years 1912-13 and 1913-14 are shown below :—

Stocks, imports, etc. A	B 1912-13. Mds.	1913-14. Mds.
Total of all stocks at the commencement of the year	1,519,026	2,052,846
Total quantity imported during the year	14,669,306	15,608,456
Excess found in the *golas*... ...	15,602	9,746
Total ...	16,203,934	17,671,048
Quantity on which duty was paid during the year	13,163,621	13,616,073
Quantity which passed free of duty for the manufacture of glazed stoneware, etc.	9,148	5,036
Quantity of non-duty-paid salt removed under bond to all inland warehouses	851,424	778,195
Quantity written off during the year for wastage or otherwise ...	126,895	108,080
Total ...	14,151,088	14,507,384
Balance at the close of the year ...	2,052,846	3,163,664

A. The stocks exclude quantities for issue of which passes were given in the previous year, but of which delivery was not taken during that year

B. The difference in the figures for 1912-13 now given and those given in the Salt Administration Report last year is mainly due to the facts that the quantity of salt issued under bond to the inland bonded warehouses in Bengal was not fully taken into account in that year or in the previous year, and that some issues under bond to warehouses outside Bengal were twice entered.

The receipts exceeded those of the previous year by over 9 lakhs of maunds. There was a very marked increase in bonding operations at Sulkea and decreases at Kidderpore and Chittagong. The clearances exceeded those of the previous year by more than 1½ lakhs of maunds.

8. **Imports.** * * * * *

The total imports into Calcutta exceeded those of the previous year by more than 11 lakhs of maunds or by 8·5 per cent. There was a decrease in imports from the United Kingdom, Germany and Aden but marked increases from Spain, Port Said, Salif and Massowah. The imports from Bombay remained at much the same figure as last year. The decrease in imports from the United Kingdom was due to the fact that freight for salt could only rarely be secured on board the regular liners. The very large increase from Salif was expected as soon as the Turko-Italian war came to an end. Massowah salt has probably come in for more attention since the imports from the United Kingdom have fallen off. No salt came from Madras or Coconada.

There was a decrease of over 1½ lakh of maunds in the imports into the port of Chittagong. The imports from the United Kingdom only consisted of 34 maunds of table salt as against 93,705 maunds in the previous year. The decrease was due to Liverpool salt not being able to compete with Aden and Port Said salt in the markets in Chittagong and the adjacent districts. The imports of German salt are small and the increase calls for no remarks. The imports from Aden decreased by 274,697 maunds as a Bombay firm which owns salt works there found it more profitable to direct their salt elsewhere. The decrease of 27,144 maunds in the imports of Spanish salt is reported to be due to the competition of Port Said salt which appears to be finding favour with consumers. The decrease in the imports of Massowah salt was small and calls for no remarks. The increase of 220,694 maunds in the imports of Port Said salt may be attributed to the smaller imports from Aden.

Out of the total importation of 14,191,668 maunds into the port of Calcutta, 10,615,010 maunds or 75 per cent. were bonded in the Sulkea and Kidderpore *golas* during the year as against a percentage of 74 in the previous year. The proportion bonded showed little variation, but the balance at the end of the year was larger by nearly ten lakhs of maunds. Advantage appears to have been taken of cheap freight to build up large reserves.

9. **Sales of imported Salt from Shipboard and Bond.** * *

In Calcutta the sales direct from shipboard show an increase of 9·6 per cent. and those from bond 1·4 per cent. In Chittagong the sales direct from shipboard exhibit an increase of 42·8 per cent. and those from bond a decrease of 4·8 per cent. There was an increase of 3·3 per cent. in the total sales of imported salt. All the vessels carrying salt to Calcutta were steamers.

10. **Transactions in the golas.**—The total transactions at the *golas* in Calcutta and Chittagong for the past five years are given below :—

Years			Calcutta.	Chittagong
			Mds.	Mds.
1909-10	...	...	16,732,270	1,454.034
1910-11	...	...	16,974,317	994,315
1911-12	...	...	18,916,765	1,460,568
1912-13	...	...	18,970,290	2,301,492
1913-14	...	...	20,132,936	1,952,207

The quantity of salt handled at Sulkea was 17,331,549 maunds against 15,891,776 maunds in the preceding year, and that at Kidderpore 2,801,387 maunds against 3,078,511 maunds.

* * * * * *

12. **Inland Bonded Warehouses.**—There were 9 private bonded warehouses in the Presidency against 10 in the previous year, viz., 2 at Naraingan j (Dacca), 1 at Bhairab Bazar (Mymensingh), 1 at Madaripur (Faridpur), 4 at Jhalakhati (Bakarganj) and 1 at Chandpur (Tippera). One of the three *golas* at Naraingan j was closed during the year. No private licensed warehouses

were opened in Chittagong during the year as salt was stored in one of the Government *golas* recently constructed. The quantity of salt despatched to the 9 inland warehouses from shipboard and *golas* in the ports of Calcutta and Chittagong was 634,195 maunds against 678,844 maunds in the previous year showing a decrease of 6·6 per cent. The quantity of salt despatched from shipboard to the bonded warehouse at Chandbali in the district of Balasore in the province of Bihar and Orissa and to the warehouses at Balaganj and Ajmirganj in Assam was 108,000 maunds, nil and 36,000 maunds, respectively, against 118,980 maunds, 20,000 maunds and 33,600 maunds in the previous year showng an aggregate decrease of 28,580 maunds or 16·56 per cent.

* * * * * *

CHAPTER III.

Consumption and Prices.

15. **Consumption.**—The total quantity of salt which passed into consumption in this Presidency during the year 1913-14 was 7,227,250 maunds. This is exclusive of 6,410,479 maunds, the net export by rail, road or river but inclusive of 261 maunds educed from saltpetre.

16. **Prices of salt in Bengal generally.** * * *
There was a decrease of 5 pies in the average as compared with the previous year, which was attributed to the fall in the prices of imported salt and to the plentiful supply of foreign salt in the Calcutta and Chittagong markets. The retail prices in the saliferous districts remained generally the same as in the previous year, the price per seer ranging from 9 pies to 1 anna. The average wholesale price per 100 maunds of Liverpool salt as sold from the ship's side in the port of Calcutta exclusive of duty was Rs. 54-6-7 against Rs. 62-3-3 in 1912-13. The Collector of Customs, Calcutta, reports that the market had a downward tendency throughout the year, while in the last two months prices dropped rather sharply. This drop was not, however, shared by Liverpool salt which closed the year with the same price as held good at the opening. In the port of Chittagong the effect of more merchants entering the trade and of railway extensions was to reduce prices.

CHAPTER V.

Financial Results.

21. **Receipts and Charges.**—The financial results of the administration of the Salt Department during the year, as compared with the preceding year, are shown in Appendix F. As compared with 1912-13, receipts show an increase of Rs. 11,56,155, or 9·7 per cent., and charges a decrease of Rs. 42,539 or 11·7 per cent. The net revenue was Rs. 1,27,20,129 which was greater than that of the previous year by Rs. 11,98 694 or 10·4 per cent. The increase in the receipts occurred mainly under the head "Import duty on Salt." The charges do not include any share of the cost of the Customs Preventive Service, which is largely employed in safe guarding the salt revenue.

* * * * * *

CHAPTER VI.

Miscellaneous.

22. **Saltpetre refineries and soda factories.**—There were three licensed saltpetre refineries at Soorah, Kakurgachi and Manicktolla under the Commissioner of Salt, Bengal, as in the previous year. There was also a factory for the manufacture of sulphate of soda by artificial heat at Tangra. The factory at Pagladanga was closed during the year.

The quantity of refined saltpetre produced in the three refineries during the year was 5,351 maunds against 7,958 maunds in the previous year. The decrease in the output was due to a quarrel amongst the proprietors of the Soorah refinery. The quantity of salt educed in the process of refinement of saltpetre was 742 maunds against 608 maunds in 1912-13, and the quantity of *sitta* (impure salt) left in the course of refinement was 925 maunds against 907 maunds in the previous year. 261 maunds of educed salt were sold during the year against 502 maunds in the previous year, the duty realized being Rs. 261 as against Rs. 502 in 1912-13. The license fees realized from the three saltpetre refineries and the factory for the manufacture of sulphate of soda were Rs. 150 and Rs. 2, respectively.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE *BHADOI* CROPS OF BENGAL, 1914-15.

(Note.—*On the average of the five years ending 1912-13, the area under autumn rice in Bengal represents some 6·7 per cent. of the total area under rice in British India.*)

Character of the season.—The rainfall in February was generally above the normal, while in March the fall was slightly in defect. The rainfall in April and May was too heavy in some parts and was not therefore entirely favourable to the sowings and growth of the crops. The insufficient rainfall in June also adversely affected the crops, but the rainfall in July improved their prospects, although there was a certain amount of injury from insect pests. The crops usually recovered later.

Acreage.—The total area sown this year with the different *bhadoi* crops is reported to be 6,076,300 acres against 6,103,700 acres of last year. Of this area, 4,986,500 acres are reported to be under autumn (*aus*) rice this year against 4,992,100 acres last year. The decrease is due to unfavourable weather conditions at sowing time and to extension of jute cultivation.

Outturn.—From the appendix attached to the report it will be seen that except in one or two districts the outturn is reported to have fallen below the normal. The low outturn is attributed chiefly to insufficient rainfall during the period of growth of the crops. According to the estimates of the District Officers, the outturn of the different *bhadoi* crops works out to 79 per cent. of the normal against 74 per cent. last year, and that of autumn rice to 79 per cent. against 75 per cent. last year.

J. R. BLACKWOOD,
Director of Agriculture, Bengal.

CALCUTTA,

Weather was favourable at sowing time, except in Kushtia; but not so during the period of growth. In Kushtia want of rain at sowing time and flood-water when the crop was ripe damaged the crop to some extent. The crop was also damaged in the Chuadanga subdivision owing to drought during the period of growth. Hence the outturn is below the normal.

The increase in area under mulberry is due to correct estimate of the crop as arrived at in the last census. The weather has not been very favourable. About two annas crop is estimated to be damaged by untimely and excessive rainfall and flood in the Kandi subdivision. The outturn for the district is expected to be below the normal.

JESSORE ...	*Bhadoi* paddy (autumn rice).	407,300	189,000	324,300	67	91	April. Normal.	The increase in area is due to conversion of some jute fields into paddy lands owing to failure last year in many parts of jute crop. The weather was favourable at the sowing time, but subsequently the plants withered for want of timely rain in places. In lowlands the crops were damaged by excessive rainfall. The damage is estimated to be 10 per cent.

KHULNA ...	*Bhadoi* paddy (autumn rice)	45,800	14,100	15,900	46	92	Beginning of April. Normal	The increase in area under *bhadoi* paddy is partly due to good weather and partly to the fact that some lands cropped with jute last year in the Satkhira subdivision were reserved for paddy owing to failure of the jute crop last year. MIDNAPORE	*Bhadoi* paddy (autumn rice).	106,600	70,200	67,000			May. Normal ...	The decrease in area under *bhadoi* paddy is due to cultivation of winter rice in some lands prepared for it. The increase in areas under fruits and vegetables is due to new classification of crops. The decrease in area under other *bhadoi* food-crops is due to heavy rain at sowing time. This excessive rain somewhat retarded the growth, but subsequent weather conditions were favourable to the crops.

Excessive rain at sowing time and want of rain afterwards caused much injury to the growth of the crops. Hence the outturn is low.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 21st September 1914.

Summary.—During the week under review light to moderate rain fell throughout the Province. More rain is wanted in a number of places for the growth of winter rice, the transplantation of which is almost completed. Harvesting of *aus* paddy and jute is continuing; but the progress in the case of jute is slow. The state and prospects of standing crops are good. Cattle-disease is reported from ten districts. The average price of common rice has fallen by about 0·5 per cent. as compared with that of the previous week.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop for 1914.

NOTE.—On an average of five years ending 1912-13 the area under jute to which the Bengal jute forecast relates has represented 88·4 per cent. of the total area under jute in British India.

Character of the season.—In the note which was published in connection with this year's preliminary forecast, it was pointed out that conditions at the time of sowing were generally favourable. In May the rainfall was too heavy in some places and in June there was a general deficiency of rain. In July the rainfall was slightly in defect; but in August and the first-half of September the rainfall was adequate and well distributed. The result was that the crop recovered as a rule from the effects of the drought in June. In certain districts, however, insect-pests made their appearance in the month of July, as a result of the deficient rainfall in June. The districts which suffered most in this respect were Murshidabad and Nadia, the outturns of which have had to be reduced in consequence. In Mymensingh, as noted in

the note published in connection with the preliminary forecast, the distribution of the rainfall was unsatisfactory. In consequence the outturn for that district is lower than the outturns of the other districts of the Dacca Division, where the crop is good. In Tippera, particularly in the Brahmanbaria subdivision, the crop is not as good as it was last year. The drought of June also affected adversely the outturn of some of the districts of Northern Bengal, in spite of the subsequent recovery of the crop. In the *deshi* area, the crop this year is on the whole a good one, especially in the district of the 24-Parganas.

The normal outturn of jute per acre.—The normal figures of outturn per acre for Eastern, Northern and Western Bengal, which were arrived at as a result of last year's inquiries, have been retained for the purpose of this year's forecast. The system of arriving at an approximately correct figure of outturn by means of an extensive series of crop-cutting experiments, which was described in the note published in connection with the final forecast of last year, was continued this year on a more extensive scale. The Director of Agriculture, Assam, has raised the normal figure for that province to 3·3 bales per acre; but the Director of Agriculture, Bihar and Orissa, has retained the normal of 3 bales per acre and has arrived at an actual outturn of approximately 2 bales per acre in the district of Purnea as a result of crop-cutting experiments.

Revision of last year's figures.—The figure of last year for acreage in the district of Dacca and the percentages returned for the districts of Dacca, Faridpur and Bakarganj have been revised in the light of inquiries made subsequent to the publication of last year's final forecast. The result of this revision is to give an increase in outturn over the published estimate of last year of 1,42,117 bales. It is further to be noted that an imaginary figure for Nepal has to be added to the estimates for this year and last year. This has accordingly been done. Assuming that local consumption amounts to 3 lakhs of bales, the figure published by the Bengal Chamber of Commerce for actual imports of jute into Calcutta and exports from Chittagong added to this figure comes to 96,56,306 bales. There is a discrepancy between this figure and the revised estimate now published amounting to 6,74,833 bales. It is not possible for me to say definitely where the error lies. One important jute firm, that of Messrs. Landale and Clark, Ltd., have made an amended estimate of last year's crop amounting to 87,40,000 bales, excluding local consumption.

Acreage.—The acreage figures which were given in the preliminary forecast have been carefully checked for the last two months. As a result of the check, the total acreage figure for the province of Bengal has been increased by 70,656 acres. In no individual case has any large change been found to be necessary, but it has been noticed that the quality of the work done by *panchayats* has varied very greatly not only in the same district but in different districts. The success of the present scheme depends very largely on an effective check of the figures furnished by the panchayats. The problem in future years will be to make this check as effective as possible.

The final figures for acreage for the three provinces for this year and last year are now returned as follows :—

	1913. Acres.	1914. Acres.	Increase.
Bengal ...	2,495,612	2,917,017	+ 421,405
Bihar and Orissa ...	318,358	330,120	+ 11,762
Assam ...	96,990	111,600	+ 14,610
	2,910,960	3,358,737	447,777

The acreage in Bengal has therefore increased by 16·8 per cent., that of Bihar and Orissa by 3·6 per cent., and that of Assam by 15 per cent.

It is to be noted that the increase in acreage in Bengal has been calculated on the area on which a crop was actually grown last year and not on that on which a crop was sown.

Outturn.—The final totals of outturn for the three provinces work out as follows :—

Province.	Bales.		Increase.
	1913.	1914.	
Bengal—			
Western	3,56,183	13,37,698	9,81,515
Northern	26,48,931	27,34,433	85,502
Eastern	49,34,825	52,35,887	3,01,062
Cooch Bihar	1,22,755	1,35,237	12,482
Bihar and Orissa	6,02,862	6,93,206	90,344
Assam	2,28,336	3,07,463	79,127
Nepal	87,581	87,581	......
Total ...	8,981,473	10,531,505	1,550,032

The most notable increase is that of the *deshi* area, the estimate for which has been the turning point both in last year's and in this year's forecast. The increase in Northern Bengal is inconsiderable, but there is a good increase in Eastern Bengal.

24-Parganas ...	18,890	87,751	57	103	34,455	289,227	August. Normal ...	There has been a general increase in area owing to high prices last year and favourable weather this year. In only one area has the crop been damaged by excessive rain.
Nadia	52,300	93,476	70	76	117,152	227,333	Middle of August. Normal.	The increase in area as compared with the first forecast is due to revision made after careful checking. The outturn is below the normal owing chiefly to damage done to the crop by insect-pest. The crop, however, was better than last year.
Murshidabad ...	38,700	37,000	75	61½	92,880	72,520	......

Hooghly ...	18,795	43,875	60	96	36,086	1.4,784	End of August. Normal	The increase in the area under the crop this year, as compared with the area shown in the preliminary forecast and the final forecast last year, is due to the fact that since the submission of this year's preliminary forecast the panchayat's returns were carefully checked by a special staff appointed for the purpose, and also to the fact that last year's final forecast, was submitted after the Damodar floods, which reduced the area on which the crop was harvested by a very large amount.
Howrah	3,608	20,814	80	78¾	9,236	52,431	August. Normal.	
Rajshahi	126,646	121,500	90	85½	354,608	364,500	Middle of July. Normal.	The better outturn than that of last year is due to the comparatively favourable character of the present season.

Darjeeling	2,340	3,171	92	100	7,535	12,148	Middle of August, late	The increase in area is due to the particularly high prices offered last year. The condition of the crop is good but more rain is wanted for steeping.
Rangpur	275,000	296,000	92	90½	865,500	987,580	......	
Bogra	90,000	85,000	91	91¾	286,650	272,000	Middle of August, late	The decrease in area is due to heavy rains at the time of sowing.
Pabna	160,000	156,000	96	97½	537,600	530,400	Middle of July. A little late.	The weather conditions were favourable at the time of sowing. The want of rain during June affected the growth of the plant. Hence the outturn is below the normal.
Malda	38,000	40,000	90	91¾	119,700	128,000	End of July. Normal	The outturn is better than last year owing to more favourable conditions.
Dacca	281,000*	293,100	95*	98	987,715*	1,062,781	July. Its progress was very slow afterwards.	The increase in area this year is due to high prices of jute and careful checking of figures. The weather conditions were on the whole favourable.
Mymensingh ...	553,602	587,620	90	88	1,860,145	1,869,806	Middle of July. But it progressed very slowly afterwards.	The increase in area this year is due to high prices of jute and careful checking of figures. Owing to unfavourable weather, the outturn has been much below the normal.
Faridpur	219,200	241,112	90*	100	729,036*	892,114	Latter part of July. But it progressed very slowly afterwards. Late.	The weather was favourable for sowing and the early growth of the crop, but in June the absence of rain interfered with its progress. The weather has since been favourable.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1914.

(NOTE.—On an average of the five years ending 1912-13, the area under jute to which the Bihar and Orissa forecast relates, represents about 8·7 per cent. of the total area under jute in British India.)

Acreage.—In Purnea, which is the most important jute-growing district in the Province, the system of obtaining a more accurate return of the area under jute through the agency of panchayats was tried during the season as an experimental measure. Four special officers, two of whom belonged to the Agricultural Department, were appointed to check the panchayats' returns and to conduct a series of crop-cutting experiments. The panchayats who submitted schedules showing the area under jute possessed by each cultivator in many cases did so after an actual survey of the plots under jute. The special officers checked the figures furnished by the panchayats and found them to be on the whole correct. The Collector, who took much interest in the enquiry, has accepted the figure of 281,220 acres thus arrived at by the panchayats and the special officers. It is curious to notice that this figure which should be taken as quite reliable closely approximates to the figure reported by the Collector in the final forecast of the last year after an enquiry by an officer of this Department. Still there is in the district among well-informed persons a strong impression that the area under jute this year is considerably in excess of the area sown in 1913, and the conclusion to which I am impelled is that the estimate of 279,000 acres for 1913 was somewhat in excess of the actual facts. This view is corroborated by the returns of export by rail and by river steamer from June 1913 to July 1914 which have been obtained and scrutinized. The system of estimation by panchayats was not tried in the remaining jute-growing districts which are of little importance, but the preliminary estimates were carefully checked by the inspecting staff of this Department. As a result the District Officers of Champaran, Muzaffarpur and the Sonthal Parganas have revised their preliminary estimates. The final district returns of the seven jute-growing districts of the Province now show an area under jute of 330,120 acres, or in round numbers 330,100 acres as compared with 329,600 acres reported in the preliminary forecast.

The acreage under jute in this Province for each of the last five years in round numbers is noted below :—

Year	Acreage	Year.	Acreage
1910	... 248,200	1912	... 298,300
1911	... 258,100	1913	... 318,400
1914	... 330,100		

Weather Conditions.—In March the rainfall was defective in all the jute-growing districts except Champaran. In April it was below the normal in Champaran and above the normal in the remaining jute districts. In May it was slightly below the normal in Purnea and Muzaffarpur, but elsewhere it was above the normal. In June the rainfall was below the normal in all the jute districts except Cuttack and Balasore which received more than the average fall. In Purnea the deficiency was heavy. Only 6·63 inches were obtained as against a normal for the month of 12·27 inches. In July the rainfall was above the normal in the Sonthal Parganas, Cuttack and Balasore, but below the normal in Purnea and other three jute districts. In Purnea the deficiency was again marked amounting to 5·38 inches. In August the rainfall was above the average in all districts except Cuttack

and Balasore, where the fall was in defect. The defective rainfall in Purnea from May to July at the critical period for the growth of the crop affected the outturn in that district. The harvesting of the crop commenced at the normal time and is going on.

Outturn.—With a view to obtaining accurate data regarding the actual outturn of jute per acre, a series of crop tests was undertaken in Purnea by the four special officers appointed for that purpose. In all 75 experiments were carried out. In 29 of these $\frac{1}{10}$ of an acre was cut, in 46, $\frac{1}{40}$ of an acre. The greatest care was taken to instruct the officers concerned to select average fields representative of the average crop over a given area, such as a thana or panchayat's circle. The average outturn shown by the first mentioned series of experiments was lower than that given by the second series, and the latter has been taken by the Collector as more likely to be accurate than the former. The average outturn as thus ascertained amounts to 811 lbs., or about 2·03 bales of fibre per acre. The low outturn is attributed to the unfavourable season. Calculating on the basis of the figure thus arrived at, the gross outturn of the crop in Purnea comes to 570,173 bales. Retaining the old normal of three bales per acre and expressing the actual outturn in percentage figures, we may say that the estimated outturn for Purnea in 1914 is 67·6 per cent. In the remaining less important jute growing districts also, the District Officers at the request of this department have had a large number of crop tests undertaken by their subordinates. Owing to the late harvest, however, results have been received only from the Santal Parganas and Muzaffarpur. The returns of these two districts show a poor and unsatisfactory crop and do not furnish moreover a sufficient basis for any change in the old accepted normal outturn. In all the six districts, therefore, the normal of three bales per acre has been retained. The percentage outturn of these districts is reported to be as follows :—

Cuttack ...	86 per cent.	Champaran ...	100 per cent.
Santal Parganas	76 „	Balasore ...	66 „
Bhagalpur ...	83 „	Muzaffarpur ...	80 „

Taking three bales as the normal outturn in these districts and working on the area and percentage outturn reported by the District Officers and taking the figures for Purnea arrived at on the basis of crop-cuttting experiments, the gross outturn for the Province amounts to 693,206 bales, or in round numbers 693,200 bales.

The average import of raw jute into this Province from Nepal during the last three years was equivalent to 87,581 bales. This figure added to the figure for the Province above arrived at gives a total for Bihar and Orissa of 780,787 bales, or in round numbers 780,800 bales.

The increase in area is due to the fact that the cultivators have sown larger areas under jute this year owing to the high prices obtained last year. The increase in area since the preliminary forecast is due to special enquiry made by the Divisional Inspector of Agriculture.
Tirhut.	Muzaffarpur	1,942,400	1,627,000	2,000*	2,100	2,300	70	80	4,410	5,520	Normal ...	The rainfall was favourable to the crop. The year's outturn is satisfactory. This year's area has been revised on the enquiry report of the Divisional Agricultural Inspector.

Bhagalpur.	Purnea ...	3,104,158	1,694,400	241,200	279,000	281,220	62	67·6	518,940	570,173	Middle of July; normal.	The area this year has been obtained by reports from chaukidari panchayats who have in many instances actually measured the areas under jute in their different circles. It is believed that this year a larger area was sown with jute than last year. Last year's area was arrived at by a process of estimating which approximated closely to guessing. The close correspondence between the area reported this year and last year is a most curious coincidence. There have been 46 crop-cutting experiments this year, giving an average of 811 lbs. per acre. On this basis the number of bales has been calculated. The number of acres reported under jute this year may be regarded as quite a reliable figure and the actual outturn as ascertained by the crop tests as correct.
Bhagalpur.	Santal Parganas.	3,466,100	1,698,200	4,100*	8,600	6,300	70	76	18, 60	14,364	Latter part of August.	The area under jute has been found to be 6,300 acres on local enquiry by the Inspector of Agriculture. Last year the area under jute was 8,600 acres. The Inspector of Agriculture having pointed out that the jute grown in Deoghar is not real jute, but Kudrum (*Hibiscus cannabinus*), the Deoghar area of 100 acres has not been taken into account. The area this year is at Pakour 800 acres and at Rajmahal 4,800 acres. The outturn at Rajmahal is 80 per cent. At Pakour the outturn is only 50 per cent., and this is due to late sowings in many places, to the damage done by insect-pests at many places at the early stage and to the high-water level of the river Ganges.
Orissa.	Cuttack ...	3,840,307	1,223,500	12,400	19,800	23,200	72	86	42,768	59,856	2nd week of August.	The weather and rainfall were favourable on the whole, though excessive rain retarded the growth of the crop to some extent in certain places. The outturn is better than last year. The date of harvesting was normal.
Orissa.	Balasore ...	1,232,621	932,300	3,800	1,580	3,400	48	66	2,203	6,732	General harvesting has not yet commenced. It will commence by 3rd week of September, which will be normal.	The weather was favourable and the general condition of the crop [illegible] fair. It suffered somewhat from continual rainfall. The area in column 7 has been revised leaving out the area where the [illegible] was of stunted growth and not fit for harvesting. The outturn of the crop is expected to [illegible] better than that of last year.

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, ASSAM.

Final Forecast of Jute Crop of 1914.

NOTE.—On the average of the five years ending 1912-13, the area under jute in Assam represents some 2·9 per cent. of the total area under jute in British India.

Character of the season.—In the early part of the year the weather was generally favourable, as indicated in the preliminary forecast, since the issue of which there has been a deficiency in the rainfall and consequently a deterioration in the growth of the crop. The want of rain was particularly noticeable in July in the main jute-growing districts: conditions improved somewhat in August.

Area sown.—The only districts in which there can be much doubt as to the area are Sylhet and Goalpara. In the latter the figures compiled independently last year by the Deputy Commissioner and those returned by the panchayats were approximately the same, and this fact lends probability to their correctness. Personal enquiries by the Deputy Commissioner point generally to an increase of 25 per cent. in area in the present year and this estimate agrees fairly well with the returns of the panchayats. I think that reliance may now be placed on the area figures of Goalpara. In Sylhet the Deputy Commissioner had the panchayats' schedules checked in some thanas of Habiganj and, in accepting the results, he claims that the area of this year is approximately the normal area. I am inclined to accept this, because an estimate made some months ago and based on the crop statistics of temporarily-settled estates scattered over 115 out of a total of 169 parganas in Sylhet came to almost exactly the same figure. Hence the apparent decrease in the area under jute in Sylhet since last year is not real and it may be assumed that we have now for the first time obtained approximately correct statistics. There has been a notable increase in the area sown in Goalpara where there is a large colony of Mymensingh people, and, as indicated in the first forecast, considerable extension in Kamrup, Darrang and Nowgong, due in the two latter districts also to the influx of settlers from Mymensingh.

The total area under the crop, as estimated by the Deputy Commissioners, comes to 111,600 acres as against 96,990 acres in last year, which should have been 85,990, if the present Sylhet figure is correct; the increase is over 15 per cent. in any case and probably should be shown as nearly 29·8 per cent.

Outturn.—Taking the average outturn of 3·3 bales per acre, which the Chief Commissioner has now adopted as the normal, the total increase in the quantity of jute available is at least 34·6 per cent. as compared with last year.

Stocks.—As already reported, very little jute remains from last year.

Cachar ...	400	300	300	40	90	260	491	August; normal.	Last year's figures are repeated as no fresh figures are available, the district being under resettlement. Heavy rainfall at the sowing season and subsequent drought in the months of May and June affected the crop unfavourably to some extent. Hence the outturn is below normal.
Sylhet ...	16,000	27,000	16,300*	50	73	40,500	39,266	July and August; normal.	Rainfall was deficient in April, but rather excessive in May. On the whole the weather has not been quite favourable to jute. From personal enquiries it is found that the area under jute has increased as compared with that of the preliminary forecast.
Goalpara ...	30,000	49,800	62,000*	90	90	134,460	184,140	July-August; normal.	The increase in area is chiefly due to the high price at which jute was sold last year. The weather was not very favourable at the time of sowing. In the same fields portion of the crop was of slender and stunted growth, while the rest was healthy. Sowing was rather early.
Kamrup ...	5,500	7,800	10,700	99	91	23,166	32,132	15th August; normal.	Increase in area is due to very high price of jute last year. Rain at the time of sowing and scarcity of rain in the growing season are the causes of low outturn.
Darrang ...	1,000	3,000	9,300	90	75	3,100	23,017	Last week of August, early.	The increase in area is due partly to the good prices of last year and partly to extension of cultivation by the people of Mymensingh district in Mangaldai subdivision. The decrease in outturn is due to damage done by insect-pests in Sadar subdivision.
Nowgong ...	500	3,500	7,300*	100	60	9,900	14,454	1st August, early	The increase in area, as compared with that of last year, is due to the profit made on the crop as well as to the influx of Mymensingh people. The decrease in outturn is due to the damage done by insects. The weather was fair.
Sibsagar ...	300	200	300	90	90	540	891	Middle of August; normal.	The weather was unfavourable to the growth of the crop on account of want of rain, but in the latter part the weather was somewhat favourable
Lakhimpur ...	200	90	200*	100	100	270	660	1st September; normal.	The increase in area, as compared with that of last year, is due to the extension of cultivation owing to the high price of jute last year. Weather was favourable and the outturn is expected to be normal.
Garo Hills ...	4,000	5,300	5,200	80	70	11,040	12,012	August; normal	Heavy and continuous rainfall after the sowing and at the time of weeding, etc., affected the growth of the crop seriously, and subsequent want of rain further aggravated the condition, and the outturn is therefore estimated to be considerably below normal.
